

Dear [Name],

I wanted to share with you a resource that I thought might be beneficial to your work.

The [*Parenting Educator Competencies: A Resource Document for the Field of Parenting Education*](#), was developed by the [National Parenting Education Network](#) (NPEN) to help professionalize parenting education through effective practice.

This document aims to promote a broad and comprehensive set of competencies, which includes key knowledge, skills, and attitudes and dispositions of effective professional parenting educators. The hope is that it will support ongoing efforts to bring consensus and greater continuity to this field while honoring the diversity that makes the professional community so rich.

As someone who works in the field, I believe this resource may be of value to you.

The [*Parenting Educator Competencies*](#) document is available free of charge on the [NPEN website](#).

[Salutation],

P.S. Please share this with others in your network!
