Title: The military secret of self-defense that most men will never know about

There is a secret that the military uses to be able to take out their opponents with their bare hands.

No matter what weapons your opponent has, it **always works**.

Why do you think it is so important to be able to defend yourself against your opponents?

Imagine you can't even protect your children or your wife in a real fight.

You don't know how to react when you are threatened.

You feel uncomfortable walking on the street at night.

And worst of all, you are afraid of your opponents and the fight.

All the men had the same problems before the military.

But when they came back, there wasn't a hint of it left.

The reason? They learnt the secret of defending themselves without fear.

Title: How to become a true man

When you look at yourself in the mirror, what is looking back at you?

Is it a real man looking back at you, or do you see someone else?

Do you even know what makes a real man?

Most men think they are living up to their expectations, but they are not.

They don't even know how to protect their family from a threat.

And more importantly, they can't even protect themselves from it.

The courage to go into a fight will not help them.

Just because you are a man does not mean that you always act as a man.

But if you really want a life in which you see yourself as a true man and ...

You can protect your family from all threats.

Your friends recognise you as fearless.

You want to be respected by everyone around you.

You feel like the best person you can possibly be.

Then your whole life will suddenly change.

Title: I saw the rage deep in his eyes

I couldn't run away, it was too late for that.

He clenched his hands into fists and ran towards me.

I dodged his first punch, but I didn't see his second hand and it hit me hard in the stomach.

He threw me to the ground with both arms.

He raised his hands again and punched me.

The pain didn't stop and I couldn't do anything about it.

I have never felt so powerless and weak in my life as I did at that moment.

When he was done, I couldn't even move.

The only thing I could think was that it was my fault that I couldn't fight back.

I have to change that now.

I can either carry on living my life normally, in fear that it could happen again.

Or I can pull myself together and learn how to conquer my fear.

I made the right decision.

In just a few hours, I managed to overcome my fear, restore my self-confidence and regain my dignity as a man.

I felt like a completely different person, stronger, more confident and fearless.
