

In this resource guide I will be giving you an outline of the “30 days to success” training that Stone Evans goes into detail inside the Pluginprofitsite (PIPS) back office.

If you have not yet created your account [you can do so here:](#)

This outline is intended to give you a FAST START to getting traffic and sales WHILE your website and free autoresponder series is getting setup by support. If you have not yet sent a support ticket to get your free website and autoresponder you can [send a support ticket here](#) asking them to do so.

This system is tailored for those who just want to make money logging in to their computers and completing a few targeted actions. No video, no long hours posting and commenting on social media, just targeted actions that work.

Step 1: Join All Five Programs

[Greatlife Worldwide](#)

[Wealthy Affiliate](#)

[Traffic Authority](#)

[LeadsLeap](#)

[Got Backup](#)

*Make sure to [send in a support ticket with your affiliate links](#) so they can be added to **YOUR** Pluginprofitsite marketing system!

[Pluginprofitsite](#) is a marketing system and NOT a “business opportunity” in of itself. The strategy is to combine quality programs and tools under one roof that you would use anyways to build an online business.

Instead of separately promoting them you have them all in your PIPS affiliate link AND free website. This raises your profits instead from just one stream to at least five.

I say at least five because there are literally dozens of income streams embedded in this system you will see later as you go through the 30 training sessions. All tailored to make you money.

The five outlined in the core offer WILL earn you life changing money but why stop there? Join as many if not all of the programs today at whatever level you are comfortable with.

This PDF will be shared with YOUR new affiliates also so make sure you upgrade so you can benefit but not only that but so you can set the stage as a leader in your team.

Step 2: Start Driving Traffic To Your Affiliate Link

My personal **FREE** way to drive **TARGETED** traffic to my PIPS link is to use TRAFFIC EXCHANGES.

You should already have upgraded to LeadsLeap. For \$27 a month you can create 10 ads that will run continuously on autopilot throughout the network.

I use Canva to create the images and then ChatGPT to create the ads. Make sure to send your traffic to your PIPS lead capture page. If your autoresponder has not been setup yet then send your traffic to your PIPS affiliate link for now.

LeadsLeap is TARGETED TRAFFIC. Facebook, Tiktok, Instagram and most social networks **ARE NOT** targeted traffic. You want people who are in the mindset of searching for a way to make money. NOT people who love to scroll on a news feed. If you want targeted from social media you need to run paid ads.

Use social media as a means to share your journey, tips and ideas but NEVER as your traffic source. Trust me when I say this. The time invested on social media for leads is not worth the investment. **TIME IS MONEY.**

Here is a list of the FREE traffic sources I use:

[YouTube](#) (create videos about your journey and paste your PIPS link in the description. Share what you learn. No need to be a professional)

[LeadsLeap](#) (part of the PluginProfitsite system. Click on the ads to earn credits so others then view your ads. I personally only manually click every day until I get 15-20 credits. Comes with other tools to build your business.)

[TrafficAdbar](#) (works like LeadsLeap but without all the tools. Simply click on ads to earn credits so others view yours. LeadsLeap and TrafficAdbar are the ONLY two manual traffic exchanges I spend time manually clicking. Here every day I click on 50 websites then stop.)

[SOTAM \(State-of-the-art-mailer\)](#) (use in unison with VMPayday)

[Herculist Plus](#) (use in unison with VMPayday)

[Pangea Group Mailer](#) (use in unison with VMPayday)

[Profits Lion Mailer](#) (use in unison with VMPayday)

Here is a list of the PAID traffic sources I use:

[VMPayday](#) (This is a tool I use everyday to get dozens of free subscribers to my email list. There is a free version but it is limited. [See my training video on this tool HERE.](#))

[Udimi](#) (Pick a solo ad vendor from the marketplace then give them your lead capture page. They will then send an email to their list with YOUR PIPS link for a cost of 30+ cents **per click**. This is a list building strategy)

[OLSP Solo Ads](#) (purchase traffic packages **on a per click basis** intended to build your PIPS list.)

MyLeadGenSecret (One of my favorites. For a monthly fee get 100 new leads everyday. Comes with a built in autoresponder. Here instead of sending the traffic to your PIPS lead capture page, send them to your sales page instead.)

Infinity Traffic Boost (purchase traffic packages that send visitors to your lead capture page. This network has hundreds of thousands of members and is highly targeted)

STEP 3: Join the CO-OP

In case you are not aware of what a co-op is. A co-op is a team of people who get together for a common good, in this case is to share in advertising dollars.

With the PIPS CO-OP what would normally cost you thousand dollars to do now will cost you pennies on a dollar. When you join the co-op you share with me and other team members the same traffic.

This is a way to automate further your traffic from sources around the web you would not easily have access to, such as from Google ads, Bing ads, but are highly targeted.

[Join the co-op here.](#)

Final thoughts

This guide is not intended to replace the “30 Days to Success” guide but instead intended to get you off to a “Fast Start” while you go through the core training.

There is a lot of quality training in the back office that transcends a lot more than what I have showed you here. What I have done here is consolidate a few key strategies from the training on this Google Doc.

Plug-in profit site is the first program I ever made money with way back in 2006. Actually, I started even earlier than that but never gave it a chance. Now almost 2 decades later I still I’m earning a full-time income with this same system.

In fact from this system is where many top leaders today learned from. If you are serious about becoming a successful network marketer online, **[login now to get started.](#)**
