

SimplePlanes Resources: Everything You'll Need to Build Better®

[By SnoWFLakE0s](#)

Self-Explanatory. Everything you'll really need, from guides to mods to other gimmicks. Categorized for easier finding of what you need, and also works as a portal for "that link to that document" that people always forget- simply link this doc and 99% of the time the FAQ is answered. All authors are credited.

Small Script: Results may vary.

Section 1: XML Resources (Self-Explanatory)

Guides and QuickLinks:

The links that you always forget. Stop spam.

[The Ultimate Guide to XML - \(Slightly Outdated\)](#) - AV8R

[SimpleCheats - A list of all XML attributes](#) - EternalDarkness, WNP78, Mod

[SimpleFAQ - In-Game FAQ. Prevents Spam™](#) - SnoWFLakE0s

XML Editing Software:

Overload is great, but not always the best.

[XMLSpear: XML Editor for macOS](#) - Donkey Development

Section 2: Useful Mod Resources (A list of mods that have great utility...)

Attribute Editing:

For editing beyond what the in-game designer will allow you to do.

[Overload: In-Game XML Editing](#) - WNP78

[FineTuner: Allows Precise Adjustments and Multi-Editing of Parts](#) - HellFireKoder

[Colour Editor: Allows Precise Color and Sheen Adjustments.](#) - WNP78

[DesignerSuite - Connections Visualizer, Orthographic View, Blueprints](#) - WNP78

DesignerSuite can also be used to create custom screenshots.

Screenshot-Taking:

Useful for taking custom screenshots that you want to upload as thumbnails.

The following two mods are best used together:

- [Upload with Screenshots Mod](#) - CarnationRED
- [FreeCam](#) - CarnationRED

[X-Ray View](#) - WNP78

Other Gimmick Mods You May Find Useful:

Self-explanatory.

[Metric Unit Conversion](#) - WNP78

If you've noticed, its quite simple, really... All hail WNP78!
