▶ PERSONALITY

Genial. Bright, cheery, someone like the sun. Caroline lights up every room she's in, the life of the party. She's friendly, outgoing and easy to talk to. She makes friends easily with any stranger she meets, a consequence of her outwardly friendly exterior.

Self-Assured. Caroline knows her strengths and weaknesses. Years of failures and humiliations have only taught her that her hard work is the only thing that will get her to where she wants to be. So— she is her own cheerleader. Her motivation comes from within. It fuels all her actions and choices.

Dogged. There's no one more stubborn, dogged than Caroline. What she lacks in talent for detective work she makes up tenfold with hard work. She'll write down all ten thousand possible combinations on a 4-digit lock. She'll read and take notes on textbooks in order to score the highest on her exams. Once she bites onto a target, she'll never let go.

Impetuous. Caroline typically acts before she thinks. Growing up in a family where her opinions didn't matter, she has a knee-jerk reaction to do what she thinks is right for herself *first*. It's helped her survive this long, so she doesn't see why it's a problem. She doesn't care what happens, what matters is her survival *now*. It's rashness with a selfish twist.

Obsessive. When something hooks her attention, she becomes unhealthily attached to it. It consumes her, body and soul. She isolates herself and acts erratically when interrupted from her hyperfixation. Her sunny demeanor disappears and she becomes hyperpragmatic. She'll

sacrifice anything and *anyone* if it benefits her hyperfixation. People have commented that she becomes very creepy and off-putting when this happens.

Dogmatic. Caroline has her own code of justice that drives her search for the "absolute" truth. She's quick to judge based off of her code and rarely changes her mind. Even when faced with *the* truth, she tends to reject it for the version of events that she believes in. It's hard to change her mind.

► BACKGROUND

► TLDR; *She's had an unremarkable life. That's all there is to it!*

She tells this story at parties. Her go-to "party trick". Certified crowd pleaser, shared laughter over some of the worst days of her life. Everyone laughs except her, a thin smile plastered on her face. The story goes like this:

Her childhood was unremarkable, so she doesn't like to talk about that.

Her early twenties were unremarkable, so she also doesn't like to talk about that.

Now, her thirties... that was a starting point. It was defined by a single conversation:

"Why are you doing this?"

All she wanted was answers. And he was amused, *impressed*, even. So he told her:

"You have pretty good detective skills, miss. Maybe you'll find what you're looking for if you come to work with me?"

The rest was history.

► IDEAL

Love. It will always and always be love. She owns nothing else in this world but love. And she would kill for it. She would die for it.

► PARTICULARS

- **Edogawa Conan** was thematically chosen as Caroline's first choice alter ego as it is a thematic parallel with her story.
- Her alter ego's height is **160CM / 5'03"**.
- When nervous, Caroline picks at her fingernails.
- She likes to buy \$5 dollar hot dogs from the street hot dog seller. She likes it with every single topping on it.
- She took an accelerated criminology course after she was recruited into OcuDei. She isn't particularly *strong* in academics, but what she lacks in talent she makes up for with her resilience. She came out top of her class.
