

Hey everyone!

I MISS YOU GUYS!!!! I hope you are all keeping busy and staying in contact with people virtually, as much as you can. I've enjoyed the slow down at home with my family, but I really miss my friends, my parents, my brother and sister, and my nieces and nephews! I didn't realize how much I see them all until I'm not able to. We've been able to go have outside visits a few times, and those have been so nice! Nice weather is on its way, and for that I'm very thankful!

This is new territory for all of us, and we all have to be patient with each other as we travel through this educational adventure. As always, you will get out of this learning experience what you put into it. If you have online access, here's a few extra things you can do:

- You can practice your keyboarding and coding skills on www.typing.com.
- You can make sure your Xello account is complete and up to date.
Perhaps there are a few new careers that have caught your interest lately that you hadn't previously thought about.
- You can continue to program your robot through LocoRobo. Unfortunately we can't test them, but you can still put your coding skills to work.

If you have questions, email me, or call the school during office hours: Tuesday 1:00-3:00pm and Thursday 9:00-11:00am. I will answer all emails by 12:00pm the next day, and in most cases it will be quicker than that. If/when I call you back, it will be from a weird number without a caller ID as I am using a google number. If you just need to chat or tell me something, please reach out! If you need something, don't hesitate to let me know and I will do my best to help.

Stay busy, stay healthy, stay helpful, and stay safe.

-Mrs. Lockhart 😊
