

Benefits of SBK LASIK

Benefits of SBK LASIK

Better Safety

Did you know that laser vision correction is safer than wearing contacts? Over the long term, you're 5x more likely to develop a serious eye infection from wearing contact lenses than from the one time experience of LASIK. Never worry about leaving your contacts in too long again with laser vision correction!

Save Money

While the cost of a vision correction procedure does come with an initial upfront investment, do you know how much you're already spending on glasses and contacts? Try our cost calculator to see how it adds up over time.

Independence

Live more independently without any plastic affixed to your eyes in order to function. Experience the sense of relief with not having to deal with contacts, glasses, or solutions to manage. Just wake up and see. Laser vision correction better accommodates a busy, active lifestyle.

Save Time

Eliminate the need to clean your contact lenses or continually wipe your glasses free of smudges. Laser vision correction frees up 5-10 more minutes of your day to avoid these annoying tasks. Over the course of a year, that adds up to 45 hours. What would you do with that extra time?

Company Description

Brusco Vision is a boutique-style laser vision correction and refractive surgical facility dedicated to one simple goal: helping you see better to live better.
