I-35 Schools

Project;A/C

This is an estimate for the installation of new unit vent systems in the three rooms being remodeled room 213,215,216, these will be DIAKIN units that are VRF system these will be compatible with the next phase of cooling remodel in this area.

This quote will cover the removal and installation of the new units in the rooms. The indoor units will use existing 120 volt circuits for electrical the outdoor unit will be 208/230 3phase and use power from the new panel being installed in the remodel.

The cost of this not to exceed \$160,000.00

Thank You Bryce Travis

Thank you for the opportunity to bid this project.
