Materials for Lesson Plan

Display your materials here as texts, images, screenshots, or hyperlinks. Be sure that each material is labeled with the same name used in the materials column of the lesson plan.

- **Attention Getter:** A very brief activity, question, or scenario to catch students' attention and focus them on the topic of study.
- **Goal Statement:** A section in which students are informed of what they are going to learn in this lesson and why it is important.
- **Language Focus:** A section in which the students are exposed to the target language and clarify its form and meaning.
- **Language Practice:** Activities in which students practice using the target language in a controlled way.
- **Language Application:** An activity in which students are expected to produce the target language on their own in a communicative scenario. It is through students' participation in this activity that the teacher can observe to what degree the lesson objective has been achieved.
- **Wrap Up:** Students are reminded of the goal for the lesson, why it is important, and the steps they followed to achieve it.
