

Tab 1

Fun Bunch SMP Team Members

All team members are an essential part of the Fun Bunch SMP. They each bring something different to the table with their varying technical skills, and together make this server what it is! Disrespecting staff = BAN.

Owner - [ITZK3V](#)

Hello! My name is Kevin, and I am the creator of the Fun Bunch SMP, and primary project head managing plugins, server dynamics & gameplay design, and currently leading all unmanaged positions. I oversee all positions, and keep the ship steered in one direction!

Head Admin - [DylanBeDrippin](#)

Hi! I am Dylan. I am the Head Admin here at the Fun Bunch SMP, and for the Fun Bunch Discord. I am one of the Founding Father MAP DEVs, and oversee all admin and moderation actions involving player mutes, kicks, temp/full bans, etc., and all staff actions to make sure all staff systems are running smoothly.

Admin - [Barnaby_B](#)

Good day! I am Barnaby! I am one of the Founding Father MAP DEVs, creator of the UK area, and the primary admin that oversees in game moderation making sure your chat stays clean, and no one is breaking any rules. Beware I might be watching you, and I HAVE THE BAN HAMMER!..

MAP DEVS - [Victordude01](#), [Oreondog](#), [Highkilla666](#), [theRIPPEDstick](#), [Davidfleming800](#), [Captainmcara](#), [Speedy](#)

These are the Map Devs of the server. They build the different cityscapes all of the PVP zones are in. These individuals, as well as the ones listed above, are the core Founding Fathers that have been working on the map since 2015. **Some of them are also trained as moderators able to kick and mute.**

| Social Media Manager / Multimedia Artist: Syeberspace

Hello! I am Sye! I run the server's TikTok, and X accounts, managing posts, and replying to comments to drive organic player traffic helping grow and advertise the server. I also create videos for the server like [THIS!](#)

| Java Developer: Penumbra

Hi, I'm Ben! I am a coding consultant providing assistance on things code wise, and editing public resources / plugins as needed for the server.

| Asset Manager: Ray

Ray here! I Manage and optimize our NEXO custom textures, items, and resource packs.

CURRENTLY LOOKING FOR:

| Community Promoter:

- Scouts public forums like Reddit (e.g., r/mcservers) or Planet Minecraft to reply to users looking for a new server.
- Monitors gaming Discord servers that allow self-promotion to post targeted, personalized invitations.
- Recruits micro-influencers by reaching out to small Twitch streamers or YouTubers to offer them exclusive perks for filming / collaborating on the server.
- Promotes our server events!

- This is the only role that requires the person applying to have played on the server on a consistent basis.

| Network / Security Manager:

Network manager Must have experience with velocity for future expansion when we want to increase player count to 1000. If you can also handle security, then you would help manage and optimize my security plugins (Sentry, GrimAC, BOAR, Protectcord)

| Multimedia Artist:

Creates media such as images / videos about the server for the Social Media Manager to post on the social accounts and or post themselves.

Security Note: Please note that live server root access is strictly restricted. All staff work is conducted entirely on duplicate test environments or handled directly through ITZK3V to preserve the safety and security of the server and everyone in it.
