

Nebula Forge - Privacy Policy

Effective Date: June 1, 2026

1. Introduction

This Privacy Policy explains how Nebula Forge handles user data. Nebula Forge is designed as a local single-player game experience.

2. Data We Store

Nebula Forge stores gameplay-related data locally on your device, including:

- best score,
- leaderboard entries,
- achievement progress,
- selected theme,
- game settings (audio, animation, and control preferences),
- daily challenge status.

3. Personal Data

Nebula Forge does not require account registration and does not intentionally collect personally identifiable information (PII) such as name, email address, phone number, or precise location.

4. Data Transmission

Nebula Forge does not transmit gameplay data to external servers as part of normal gameplay.

5. Third-Party Sharing

Nebula Forge does not sell, rent, or share personal data with third parties.

6. Children's Privacy

Nebula Forge is not designed to collect personal data from children. Since no account or personal profile is required, personal data collection is minimized by design.

7. Data Security

Game data is stored using local app storage mechanisms provided by the operating system. Users can remove this data by uninstalling the app or clearing app data through system controls.

8. Your Choices

You can manage or reset game settings at any time in the in-game Settings page.

9. Changes to This Policy

This policy may be updated in future versions. The latest version date will be reflected in the effective date above.

10. Contact

If you have questions regarding this policy, please contact the app publisher through the distribution platform support channel.
