Our greatest partnership is with you. Your involvement in your child's education—whether by ensuring regular attendance, engaging with homework, or participating in school events—is essential to their achievement.

We are committed to open communication and welcome your questions, feedback, and collaboration. Together, with the support of our dedicated staff and community partners, we will continue to ensure that the Comegys students soar to great heights.

Thank you for your continued trust and partnership in your child's educational journey.

Netter Center University-Assisted Community School (UACS) After School and Summer Programs

[The University of Pennsylvania's Netter Center](#) offers extended learning programs that provide a safe, supportive space for students after school (3:39–6:00 PM) and during the summer (9:00 AM–4:00 PM). Designed for K–8 students, these programs include academic support, arts and cultural enrichment, recreation, and hands-on, project-based learning.

A major component of the Netter Center's work is mobilizing the vast resources of the University of Pennsylvania to help traditional public schools become and function as innovative University-Assisted Community Schools (UACS).

A University-Assisted Community School (UACS) is a community school in which universities serve as the lead partner in providing broadly based, sustained support. Academic partnerships connect the university's and school's curricula through a focus on helping to solve local community-identified problems. This approach is designed to improve both the quality of life in the community and the quality of learning at all levels of schooling.

UACS, as well as community schools in general, are comprehensive neighborhood centers built on partnerships that educate, engage, activate and serve students, their families, and other members of the community. For neighborhood schools to function as community schools, they need additional human resources and support. Universities are particularly well-suited to be a lead partner in the creation, growth, and ongoing development of community schools, including providing academic, human, and material resources.

The Netter Center has more than thirty years of experience developing and adapting the University-Assisted Community Schools (UACS) model that was created with its school and community partners in West Philadelphia.

EQUITY & STUDENT RIGHTS

LGBTQIA+ Policies & Resources

Policy 252 – Transgender & Gender Non-Conforming Students

We are committed to creating a safe, inclusive, and supportive environment for all students. In alignment with the School District of Philadelphia's Policy 252, we affirm the rights of transgender and gender non-conforming students and will follow these key practices:

Names & Pronouns

Students will be addressed by the name and pronouns that align with their gender identity. No legal or medical documentation is required. Intentional or repeated misuse of a student's name or pronouns is a violation of this policy.

Privacy & Confidentiality

A student's transgender identity will not be shared without their permission, even with parents or staff. Students have the right to decide when, how, and with whom they share this information.

School Activities & Spaces

- Students will be included in all school activities, groups, and spaces that match their gender identity.
- We aim to minimize separating students by gender whenever possible.
- Gender-neutral language (like "they" instead of "he/she") will be used in written communication when appropriate.

Restroom Access

Students may use the restroom that aligns with their gender identity. A private, single-stall restroom will be available to any student seeking more privacy, but use of that space is optional, not required.

PE & Intramural Sports

Transgender and gender non-conforming students may participate in physical education classes and intramural sports in a way that aligns with their gender identity.

We support students and families experiencing homelessness by removing barriers to enrollment, attendance, and success in school, as outlined in the McKinney-Vento Act. → [Learn more about your rights and available support](#)

HEALTH & SAFETY

School Nurse

Our school nurse provides immediate care for illnesses and injuries, conducts required screenings, and supports students' overall wellness. The nurse also maintains medical records for every student.

Parents/guardians must notify the nurse about any special health conditions and are encouraged to reach out with questions or to schedule a confidential appointment.

→ Contact your School Nurse, Nurse Mike, at: (215)400-7860

Student Illness

If a student feels ill during the day, they should go directly to the nurse, not call home on their own. Parents/guardians will be contacted if the student needs to go home.

Staying Home When Sick

Anyone who is sick—students, staff, or visitors—should stay home. If someone becomes ill while at school, they must leave the building promptly.

Student Medication

The school will only administer medication with written permission from both the parent/guardian and a physician. A completed [Medication Administration Form](#) is required and must be updated if the prescription changes.

Key rules:

- Medications must be in the original container, labeled with the student's name and prescription details
- All medications must be turned in to the nurse's office
- Students may not keep medication in desks, lockers, or backpacks
- Unused medication must be picked up by the end of the school year or it will be disposed of

A new authorization form is required each school year.

Immunization Requirements & Health Services
