

Thank you for considering Expert Coach Center for your Wellness Coach Certification Program.

Scholarships are competitive. If awarded, scholarship offers can be redeemed for any cohort within a full year of the award.

We have two available Wellness Warrior Scholarships at this time. Both scholarships cover 50% of our full tuition, which is an award amount of \$1,950.00.

- 1) Individuals who identify as Black: We are supporting aspiring Black coaches to help combat health disparities in Black communities. This scholarship covers 50% of our full tuition (award amount of \$1,950.⁰⁰).

By offering a scholarship specifically to those who identify as Black, we hope to increase the number of Black coaches in the field. This is not a financial need scholarship. For this purpose, the term Black is used as a broad term and applies to a variety of ethnic groups from around the world. Clients may feel more comfortable working with a coach that understands systemic social and economic conditions that have contributed to higher health risks. Trusting and supportive relationships are at the heart of every coaching relationship. Clients may feel more trust and support when choosing a coach similar to their background.

- 2) Leaders in their field: We support those who are proven leaders within their community or the field of health and wellness. This scholarship covers 50% of our full tuition (award amount of \$1,950.⁰⁰).

This wellness warrior scholarship is for those who are passionate about wellness and desire to make a positive impact in their community by serving others. This is not a financial need scholarship. This scholarship is open to anyone. By offering a scholarship open to anyone who is passionate about becoming a coach, we hope it helps those who may be in a situation where a scholarship could make a difference.

More about our Scholarship

We understand the term “Black” does not cover the diversity that identifying as Black can entail. For this purpose, the term “Black” refers to a variety of different ethnic groups from around the world.

We understand that health disparities in Black communities are by design through systemic social and economic conditions. This scholarship does not imply that coaches are to fix the problems, rather this scholarship is designed to train coaches who understand the social and economic conditions that may put some people at a disadvantage and at a higher risk with regard to health disparities.
