Title: AI In The Classroom
Audience(s): teachers, instructional coaches, curriculum leaders
Grade Level(s): K-12
Overview: Welcome to "AI and the Classroom," a dynamic computer science workshop designed for educators eager to explore the transformative role of Artificial Intelligence (AI) in education. In this workshop, participants will delve into the fascinating world of AI and gain insights into its potential impact on the future of the classroom. From understanding the fundamentals of AI to exploring practical applications, educators will learn how to harness this technology to enhance teaching and learning experiences. Discover the innovative ways AI can be integrated into educational settings, fostering personalized learning, automating administrative tasks, and promoting student engagement. Equip yourself with the knowledge and skills to navigate the evolving landscape of education with confidence. Join us on a journey to unlock the full potential of AI in the classroom and shape the future of education.

How can we customize this offering for your district/ site?
- Delivery Method:
  - In-person
  - Virtual
  - One-on-one
  - Grade level team/ Small group
  - Whole staff
- Implementation Support:
  - Professional Learning
  - Coaching
  - Modeling
  - Co-teaching
  - Observing/ Feedback
  - Monitoring
  - Facilitate team walkthroughs
  - Data analysis
  - Other by request
