For the following examples...

Let's assume the minimum passing score is 75%.

How this was calculated:
Let's assume your region is Mississippi.
Using this chart, we know that the minimum passing score for this exam in Mississippi is 149.
We divide that number by 200. So, 149 ÷ 200 = 74.5, rounded up to 75%.

Sample 1

You graded your own essay questions and scored the following:
>   Question 1: 2 (converted to 66%)
>   Question 2: 2 (converted to 66%)
>   Question 3: 3 (converted to 100%)

These are the grades you received on the multiple choice exam:
>   United States History: 79%
>   World History: 80%
>   Government/Civics: 71%
>   Geography: 73%
>   Economics: 71%

1) Use the following formula to determine your score:

[(UHST)*(.19)]+[(WHST)*(.15)]+[(GV/CVCS)*(.14)]+[(GRPHY)*(.14)]+[(ECN)*(.16)]+[(ESY1)*(.083)]+[(ESY2)*(.083)]+[(ESY3)*(.083)]

[(79)*(.19)]+[(80)*(.15)]+[(71)*(.14)]+[(73)*(.14)]+[(71)*(.16)]+[(66)*(.083)]+[(66)*(0.83)]+[(100)*(.083)]

[15.01]+[12]+[9.94]+[10.22]+[11.36]+[5.478]+[5.478]+[8.3]

77.786%

2) The minimum passing score is 75%. You scored 78%. You passed the exam by an additional 3%. It is estimated that you will pass with average studying.

>   - If you passed the exam or missed it by 3%, you will likely pass with average studying.
>   - If you missed the exam by 3%-8%, you will likely pass with rigorous studying.
>   - If you missed the exam by 8%-13%, you will likely pass with extremely rigorous studying,
>   - If you missed the exam by more than 13%, please contact your region to coordinate an appropriate plan.

Sample 2

You graded your own essay questions and scored the following:
Question 1: 2 (converted to 66%)
Question 2: 2 (converted to 66%)
Question 3: 1 (converted to 33%)

These are the grades you received on the multiple choice exam:
United States History: 75%
World History: 72%
Government/Civics: 74%
Geography: 74%
Economics: 75%

1) Use the following formula to determine your score:

[(UHST)*(.19)]+[(WHST)*(.15)]+[(GV/CVCS)*(.14)]+[(GRPHY)*(.14)]+[(ECN)*(.16)]+[(ESY1)*(.083)]+[(ESY2)*(.083)]+[(ESY3)*(.083)]
[(75)*(.19)]+[(72)*(.15)]+[(74)*(.14)]+[(74)*(.14)]+[(75)*(.16)]+[(66)*(.083)]+[(66)*(0.83)]+[(33)*(.083)]
[14.25]+[11.25]+[10.36]+[10.36]+[12]+[5.478]+[5.478]+[2.739]
71.915%

2) The minimum passing score is 75%. You scored 72%. You missed the exam by 3%. It is estimated that you will pass with average studying.

- If you passed the exam or missed it by 3%, you will likely pass with average studying.

- If you missed the exam by 3%-8%, you will likely pass with rigorous studying.

- If you missed the exam by 8%-13%, you will likely pass with extremely rigorous studying,

- If you missed the exam by more than 13%, please contact your region to coordinate an appropriate plan.
