

Technical notes on forms and calendar

Notes on Using Gravity Forms for Membership Signup & MailChimp Forms

- For MailChimp, see the [plugin google doc](#)

Calendar: How to make the iframe tag for a combined calendar:

1. Goto the [FriendsOfMtTam@gmail.com](#) calendar.
2. In left column click the down-arrow next to the Hiking (or any other) calendar
3. Click "Calendar Settings"
4. The <iframe> code is in a window far to the right of "Embed This Calendar"
5. Above that code, click on "[Customize the color, size, and other options](#)"
6. Customize the calendar and copy the <iframe> code from this page.
7. Be sure to check all the calendars you want in "Calendars to Display."
8. Calendars should be 970 wide by 610 high.

To load the calendar from a spreadsheet: <http://n8henrie.com/2013/05/spreadsheet-to-calendar/>
