hereby declare that the manuscript submitted to **BIO-EDU** is an original scholarly work prepared honestly and responsibly in accordance with the principles of **academic integrity and publication ethics**.

I hereby declare that the submitted manuscript:

1. **Is free from fabrication**, meaning that no data, information, research results, sources, or findings have been invented or falsely created.
2. **Is free from falsification**, meaning that no data, research materials, procedures, images, results, or other research information have been manipulated, altered, omitted, or misrepresented in a manner that could affect the accuracy or interpretation of the research.
3. **Is free from plagiarism**, including plagiarism of ideas, data, methods, text, figures, tables, or other intellectual works belonging to others without appropriate acknowledgment, quotation, or citation.
4. **Is free from unauthorized or unethical authorship**. All individuals listed as authors have made substantial contributions to the manuscript and have agreed to be listed as authors. No person has been included as a *guest author*, *gift author*, or *ghost author*, and no individual has been listed without their knowledge and consent.
5. **Contains no undisclosed conflict of interest**. Any actual or potential conflict of interest related to the research, funding, institutional affiliation, personal interests, or other relevant circumstances has been fully disclosed to the journal.
6. **Is not subject to multiple or simultaneous submission**. This manuscript is not currently under consideration by another journal, publisher, conference proceeding, or other publication venue.
7. **Has not previously been published in its entirety** in another journal, proceeding, book, or other scholarly publication, except for material that has been properly acknowledged and is permitted under applicable publication policies.
8. **Uses data, information, images, tables, instruments, and other materials obtained and used lawfully and ethically**, and all necessary permissions have been obtained where required.
9. **Complies with applicable research ethics requirements**, including obtaining *ethical clearance*, ethical approval, informed consent, or other relevant permissions when required, particularly for research involving human participants and/or animals.
10. **Contains no other forms of academic or publication misconduct**, whether direct or indirect, that may mislead readers, harm other parties, or compromise the integrity of the scholarly publication process.

11. **Contains accurate and properly acknowledged sources and references.** I take full responsibility for the accuracy, authenticity, and integrity of the data, information, and content presented in the manuscript.
12. **Has been approved by all listed authors for submission to BIO-EDU.** All authors have agreed to the submitted version of the manuscript and consent to its editorial review and publication process in accordance with BIO-EDU's policies.

Should it subsequently be established that the manuscript contains **fabrication, falsification, plagiarism, unauthorized or unethical authorship, undisclosed conflict of interest, multiple submission, violation of research ethics, or any other form of academic or publication misconduct**, I agree to take full responsibility and accept any actions or sanctions imposed in accordance with the policies of **BIO-EDU**, applicable publication ethics standards, and relevant regulations.

I further declare that, if this manuscript is **accepted and published by BIO-EDU**, I agree to grant the publication rights/copyright to BIO-EDU in accordance with the journal's applicable copyright and publication policies.

I certify that this statement is made truthfully, voluntarily, and without coercion from any party, and that I am fully aware of and responsible for the declarations stated above.
