

Terms of Service

Payment plan:

- For every commission, please send me at least **30%** of the total before I start working and fulfill the rest of the payment to receive the completed file via email.
- Payment plan is on offer.
- **PayPal only.**
- **Ways of charging:** all commissions will be charged via "Business & Goods" via PayPal and you'll charge the PayPal fees.

Refund policy:

- If you cancel a commission in progress, it depends on your commission progress that I may or may not refund and I hold all the rights to the work for self-promotion purposes.
- I only refund 100% previous payment when no work is being processed, even a sketch.

Revision policy (for rigging comms):

- Please rest assured that I'm always willing to and will try my best to fix those errors that may occur during your use. If there are any problems all you have to do is send me a text and some pictures of your situation, you'll receive new files until things work smoothly again.
- However, errors while streaming may not only come from the rigging but also from the device and program of yours, and even the model, so I cannot fix those that are not caused by rigging.
