

My Info Sheet

Hi, my name is Abigail Warner! I've specialized in digital artwork for almost 10 years, and traditional for 20; so much so that I created an online business for myself. It is open yearly- **from January to October** -to give myself more time to focus on my job occupation for the holidays.

When it came to school [est. 2012-2016] I never found the right opportunity to push myself into making a commission business, but once I graduated with my Associate of Applied Sciences [Graphic Design major] I took that time to make a name for myself as I built myself a reputation. Jumping to and from jobs- currently employed at a full-time job -I still find myself falling short on cash. So I use this small hobby of mine to add towards my savings.

The tool of the job is my prized Wacom Tablet. I've had my experiences with the editing products, including but not limited to:

- Photoshop/ Affinity Photo
- Illustrator/ Affinity Designer
- Animate/ ClipStudioPaint EX
- Premiere Pro
- After Effects

With that said, I look forward to working with you!

- Abigail Warner

Prices

Disclaimer: On my pages that I showcase my work- both traditional and digital -I will NEVER give consent to those with intent to sell my work online [in prints, clothing, household items, etc] without consultation. As of August 2018, I made it a rule that my previews of my finished commissions will have my signature &/or watermark included. Payments must be paid in full [via PayPal] after the idea is concluded and before the creation is made, unless a plan is agreed upon. Please view the [Agreement](#) for further details.

Animation**:

 - Rough + Line + Fill: \$65/minute of animation
 - Additional Effects: \$20/10 frames max.
[e.g. smear, dust, flashing lights?, and splash]

Go [here](#) for an animation demo reel~!

Selling/Shipping Physical Artwork

For my current artwork, they have a set price for the canvas/print itself- excluding the additional packaging cost.

- [Traditional Pieces](#) contains most of the traditional artwork I have done in the past- including media used, size, and what year it was created. The document will contain prices next to each image's title, and I will be regularly updating each piece.
 - **NOTE:** In regards to having the canvas 'On Hold', I will not hold onto it forever. No response on the take after 72 hours will lead to the canvas being up-for-grabs again and **I will not hold onto it for the second time.**
- [Available Prints](#) displays all of the digital prints I have prepared since 2016 for the customers who'd like those 'artist booths from a convention' feel. Prices in folder description.
 - **NOTE:** The gallery only contains the previews of the images (watermarks), which means there will be **NO FREE DOWNLOADS**. Found having my image(s) downloaded, published, reposted, and used for illegal money distortion will result in a warning to delete them- then, if later a continuing offense, an online report to IC3.

The additional shipping cost varies on location and packaging; so if you're purchasing a bulk of physical artwork, they might be sent in a larger envelope or a box.

- The additional cost will go towards the insurance of the package.
- I research in regards to shipping locations, what kind of packaging, and the package's size to determine the additional cost.
 - **NOTE:** Due to the pandemic, deliveries tend to be slow. I will keep you up-to-date by sending you the copy of the tracking number- and its expected arrival date -from the receipt upon the time I send your order[s] out.

*Ask me about prices for reference sheets, YouTube-related content, and album covers, and additional pricing for custom backgrounds

**This service is still relatively new, and will fluctuate in regards to availability and timing of deadline. Will negotiate if possible.
