an actual about me

hi

i'm quincy, though you may also know me as lepicera. i go by they/them pronouns.

i've been drawing incessantly my whole life, but i only started "taking it seriously" around early 2017. i make digital art, character designs, creative fiction, & electronic music.

my main project at the time being is my "free to use characters" project. it is exactly what it sounds like. you can read more about it at <https://f2ucharacters.carrd.co>.

my interests include **biology**, **art**, **homestuck**, post-apocalyptic / sci-fi media, roblox, minecraft, object shows, and dragons. (anything in **bold** is a current special interest of mine.)

fun facts:

- i have two cats and a dog. they are very sweet.
- i'm a proposit page of breath. (i also have a very unfinished classpect test if you want to figure out which nerd label you are! <https://boxedlikeafish45.github.io/cpt3/aspect.html>)
- i have been making & collecting character designs for a very long time. i have several thousands of designs by now - most of them were made by me or through character generators, but quite a few were made by others as well.

really old intros that i think are either funny or cute

obligatory interaction info

do not interact if you:

- are under 13. (block me immediately and don't look back.)
- are on a political or discourse-centric account. (please interact from a different account.)
- don't want me to reference your art or OCs. (block me, and in return, don't go anywhere *near* my artwork.)

other than that, i block liberally, but i hopefully don't bite.

self-defined interaction etiquette

this is mostly for the sake of people who like rules. if you don't like rules, just follow the tried and true method of not being an asshole!

- i am non-binary. for me, this means that my gender is none (like an object, or a flowering plant). i am not "basically a man / woman who uses different pronouns". thanks.
- i am (hopefully) non-judgemental and enjoy talking to people. feel free to start a conversation with me anytime.
- i tend not to respond to empty statements such as "okay" or single-emoji responses. conversely, i'm pretty disinterested in small talk. sorry
- please tell me directly if you have a problem! i want to have an open line of communication. **i am very bad with implications & unclear commands.**
- i dislike tone tags.
- if you can't show it in a workplace, don't send it to me. (there are obviously exceptions for friends, but this is a document for strangers.)

please interact

i almost put another list here

anyone can DM or try to become friends with me. however, i will warn you that i am **extremely** pedantic and a bit of an asshole XD

obviously, you will have better luck if you share some of my interests or life experiences. "better luck" doesn't mean all that much, though.

if you care

this is for all y'all out there with mile-long DNIs, or alternatively, y'all with incredibly reactionary takes. i'd like it if you took the time to read more than 280 characters before making a snap judgement.

- i am mentally ill, or neurodivergent, or whatever the term is, so don't be a COMPLETE asshole. keep it partial. thanks.
- i talk to people regardless of their self-imposed labels. **yes, this includes people you dislike. i'm being serious here.** contrary to common belief, people do not instantly agree with every opinion they are exposed to.
- i fit into many people's DNIs due to my (undisclosed) interests or stances. i won't start interacting with you if i fit your DNI, but if you interact with me, that's on you.
- i separate all fictives and kin from their sources. no exceptions.
- i am my main audience. do not feel entitled to what i make. "don't like, don't follow".

→ certain typing quirks make me go into a blind rage so don't be surprised if you get auto-blocked lol

feel free to block evade if you have something semi-professional to tell me (eg. commissions, art fight, etc.). petty block-evading will just get you reported.

if these boundaries are crossed, i will simply block you. good day!

wow. you made it this far. i should give you a cookie or something.

instead, i will be gifting you: blinkies!

thar be blinkies ahead! - warning for eyestrain, flashing, overstimulation, and the like

(i promise this is not an error, you just have to scroll a bit to see them)

bye-bye :3
