

Open Screencastify - (Video on how to) - <http://somup.com/crV33Qoyqq>

How

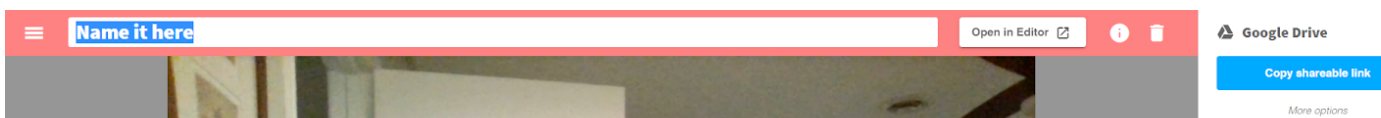

Screencastify is added to Chrome as an "Extension" by going to the [Chrome Web Store](#) and clicking "Add to Chrome". [This video](#) shows you step by step how to install and quickly use Screencastify.

1. Once added, the Screencastify icon will appear at the top of chrome next to your URL(Omnibar).
2. Clicking on the Icon will start the process for Signing in with your FCPS Google Account credentials.
3. You will need to allow Screencastify to access your Camera and Microphone.
4. After the extension is "Set up", to do a recording simply click on the icon again and select from the basic options on how you want to record.
5. Record your video and stop the recording.
6. Share the link!

- You may need to hit the puzzle piece in the upper right hand corner to see all my extensions.
- Select screencastify
- Select webcam only since you want to record yourself recording you presentation about your product

- You can name it simply by typing in the top of the screencastify video

Once Recorded you can edit it or you can now look for it in your google drive.

In fact if you open your google slides and INSERT / VIDEO / Google Drive / RECENT. It will show up first
