

John 6: 5 when yua lifted up his eyes and saw a great crowd coming toward him he said to Phillip where will we buy bread that these may eat now he said this not because he wanted an answer he said this to test him Yahweh will always present you with a problem he said Phillip we've got a problem we got all these people here and nothing to feed them what are we where we going to buy food from except he didn't say that he failed the test if you're not careful you'll fail it as well Phillip answered him but it was the wrong answer sir he said 200 dinar worth of bread is not enough for each one of them to even have a mouthful one of his disciples Andrew said to him there is a lad here who has five barley loaves and two small fish but what is that that won't help the whole church failing the test the whole church every Apostle failing the test yua said make the men sit down now there was much grass in the place so men sat down they numbered about 5,000 men now I believe the King James version says in verse 6 let's read it again

verse 6 he said this to test him for he himself already knew what he was going to do but without prayer you can't know what he's going to do I've come to preach to you tonight prayer is a test yes sir sir you may be seated Yu knew all along what he was going to do now you don't want to miss this lesson tonight because I'm fixing to go deep in prayer I'm going to help you remember last week I taught you don't get too caught up in the howl of prayer we don't get too caught up in the mechanics of prayer because if you figure out the

how without figuring out the then it's nothing but a religious practice a repetitious practice it's a robot praying okay so tonight we're going to continue learning the why of prayer before I begin to teach you how to pray prayer is your test because yua knew all along what he was going to do and I want you to hear me today Yahweh knows before you ever pray a prayer what he's going to do oh Hallelujah the Holy Ghost is going to help me get there because God revealed this to me today he said I asked Phillip to see if Phillip would

try to figure it out or if he would just pray if he would say Lord we just going to pray that's all we going to do you know when sister Karen there was a problem that Mom and Dad had here was a problem Yahweh presents you with a problem here's the problem we got 5,000 people here and no food and I could see yua sister Lydia right then said reckon what we going to do son how we going how we where we going to get all that kind of food from Psych you talk about reverse psychology he's playing with the heds he's like it's bad ain't

it it's getting worse by the minute there's more coming say one minute a few minute y'all gonna pick up what I'm saying I'm coming to tell you that every problem in your life is designed to teach you to pray every problem in your life is not there for you to figure it out hallelujah it's for you to say not my will but thy will be done hallu all Phillip had to say to him was thy will be done Lord I just saw you walking on the water if you can't feed 5,000 then I don't know how we going to do it pray in this manner he said thy will be done in other words he said I saw you walking on the water if you can't feed 5,000 they ain't going to get fed if you can't fix my problem it ain't going to get fixed cuz I don't know what to [Applause] do as long as you can figure out how to fix your problem you'll never pray ever as long as you know the solution you'll never find the solution help you now I want you to understand God sends problems in your life to test you whether you've learned how to pray if you've learned to surrender to his will I would like to believe if yua asked me that question I'd like to believe that I would have said to him are you kidding me you can walk on water I'm just going to pray to you and your father and then y'all get it done sir oh ye of little faith what's surprising to me brothers and sisters is those of us that lived among those of us that have lived and seen the Miracles in first Harvest Ministries the absolute Miracles still want to talk to me about problems ah there are no problems uh we just going to pray it's only for a [Music] test brother V what are we going to do about this out here speak to the mountain and pray now why does God want us to pray let's let's let's dig in a little bit in other words why is yua test ing Phillip because I'm going to tell you why unless you become as a little child Hallelujah you will not enter the government of God prayer was designed to turn you into a crybaby come on pray was given to test how much of a child you have become hallelujah hallelujah unless you become as a little child yua was not see that's

where philli messed up yua wasn't looking for an answer he was looking for a child that said I have no idea Daddy I have no idea it's not my will but I know oh that you've already figured it out you've already got a solution Pride cannot pray if you want to destroy your pride pray prayer says I don't have an answer prayer says I don't have a solution prayer says I don't know the way out prayer says I'm a child AB a father I must have you Hallelujah teach us to pray why because it's in prayer when all you can do when every bill is due and

when somebody says how you going to pay it don't give them an answer pray but Pastor I feel so that's all I can do is pray you don't understand do you darling the power is in the Unseen realm and the only way you can unlock the Unseen realm is with the key of prayer it's in prayer that you become a little child [Music] it would be like a father and a son riding down the road and the little boy they have a flat tire and the daddy looks at the son oh what we going to do DD know son we in trouble now what we going to do now son well

Daddy I reckon we could uh what we could do is uh no son you're failing the test I want you to depend on on Daddy you understand I'm not looking I don't need you to help me out I don't need you to offer me a solution I need you to cry ABA father I need you to know who your daddy is I need you to depend on me I need you to cry out to me prayer will bring you into childlike faith when my wife was dying there was no solution there was nobody that said uh well just breathe in her lungs and that'll do it and and then there was

nobody that said oh we'll turn her on our right side four times and kick her in the behind and that'll do it no solution ah they wasn't trying to look on Google go to find one oh come on now see they Wen trying to find a solution they had a solution they had a father that cares for his children and they knew how to cry out to [Music] him if your car breaks down even if you know how to fix it pray first even if you know what to do pray father help me give me the wisdom I am a child why do you think we pray over our food I've had people tell me well why I got to thank God for it I'm the one paid for it you poor fool you poor fool I'm the one I've had people tell me I'm the one got up and went to work and I'm and baby who woke you up to get up and go to work who made them

lungs function who gave you the strength and the mind to do it give thanks in all things H it's a test it's a test prayer is a test God uses prayer to force you into being a child that's why you don't have to know how to pray children don't have to know how to beg that just

beg they don't even have to a child don't even have to say nothing they can look at you with them pouting crying eyes and beg with their eyes prayer Ain't About Words prayer is about knowing you're a child you're helpless on your own you are nothing that's what prayer is I I just love that yua asked Phillip where could we buy some food he knew they couldn't get enough food for that many people when problems come in your life sister dot many times it's the father just watching to see if you're going to look for a solution or if you're going to cry out to your father in Heaven I don't know what to do father but I have a father who can ah he looks High sits high and looks low he guides my feet wherever I go oh and when I don't understand I have a father who can Hallelujah people like me that have a logical mind and I do I think about everything prayer is not easy for logical people I'll just tell you now okay I wouldn't go to sleep tonight cuz I'm going to get somewhere all my life I've wondered about prayer brother Michael mahalik what is prayer and why should we pray first of all if Yahweh is omniscient he knows all things he knows the end from the beginning as a matter of fact yua said your heavenly father knows what you have need of before you ask so why ask because it's not about what he knows it needs to be about what you don't know and about how you need him there is a relationship of need there do you know why I believe if a woman don't have to work she shouldn't here's why there is a need that a wife has from a husband to provide for

her when you take that need away from her before long you'll have two men living in one [Music] house you'll have a husband and a lesbian living in the same house together because no longer do they need anything some people need to hear me in the spirit when I speak and not up here in your carnal Minds I'm teaching Eternal truths you won't hear anywhere else I'm teaching you God needs you to need him he needs you to need him you're in a covenant relationship he's the provider he's the man you're the [Music] receiver I love it when my wife needs

me but you see when I hear a woman say come up by my face when I hear a woman say I don't need a man I want to weep who Bewitched you to think you don't need a man get that demon Spirit out of your mind of course you need a man now until you get one you'll have to try to make ends meet but every woman needs a man and it's when you quit needing one that they turned you into a man women shouldn't have to bring home paychecks it's not natural now if you do it you do it you have to I get it I'm so you can get a I'm so sick I don't care if you get

offended I'm so sick of worried about people being offended when you hear the truth I'm sick of jamanji being offended and everybody else my god grow up quit being [Music] offended woman I'm not putting you down I'm taking up for you I'm Defending Your femininity you were created to need and therefore God created his church to need father we need our Heavenly bridegroom we yeah we may know the answer but I like when my wife acts dumb I love it amen Pastor right many times she does it on purpose so I feel like I'm

needed why that's a relationship if she didn't need me she wouldn't be my wife that's right if you don't need your father in heaven your heavenly bridegroom then you're not a child or a wife to him you are you are him there's two gods in your world there's you and him you should never be ashamed of asking God for anything more than a wife should be ashamed to ask you to change her tire that's right why without that need there's no relationship there's no Covenant between us and a man needs a wife for certain physical things there is a need there

why God created it so that we if I want you to think about it the world has turned men and women into they don't know what they are by because they've taken that don't be needy I'm so needy I'm so needy I'm so needy I need what I need thank you Elder so here was my problem with prayer do you know something about yourself brother Kent that God does not know about you and you need to tell him about it I want you to think about it is there anything about you that God don't know does he need you to come tell him about yourself

does he have in order for him to know something about you is it possible that Yahweh having created and ordained all your steps Now does not know how to take care of the works of his hands without a request from you since y'all miss that I'll do it again the god that says I I have ordained your steps do you think he needs you to ask him to ordain your steps as I begin to think about these questions in this series I understood the Bible says that God works all things after the counsel of his own will not after my prayers and that I could not change his will no matter how much I pray the only prayers that God can answer are those that hold on now and and the only way you can pray according to his will there oh that's why the Bible said that when you pray in the spirit you know not what you pray when you don't know what to pray he will pray to himself on your behalf praying in the spirit and with understanding he prays for [Music] you if the only prayer he can answer is the one after his will then he's got to put his will in your mind for you to be

able to pray effectively that's why when Paul said when you don't know how to pray or what to pray pray in the Holy Ghost and he will pray for you Hallelujah the poor fool that doesn't believe in praying in tongues that's the only way you can pray the will of God in the earth as long as you praying in English you pray in Lydia will 90% of the time oh but when you press through in prayer and get Beyond Lydia all of a sudden something will begin to pray for you something will begin to pray through you something will begin to pray when

you don't know how to pray that's why you need the gift of tongues every time you pray you ought to ask God to give you the gift of tongues say father give me the gift of praying in the spirit singing in the spirit outside of my human mind into your mind s sister Ruth taught us when we would begin to sing in the spirit she got so aggravated with words because she said words is human understanding but when you begin to you begin to move past your own understanding and he begins to feed he literally prays to himself through

you all he needs is your voice on Earth and he'll do the praying he just needs your voice to release what he's saying into the Earth Earth nobody hearing me [Music] now how prideful for you to think you need to know how to pray no matter how much you learn

how to pray you'll never pray effectively Paul said that's why you pray in the spirit you poor YouTube people people that go from one teacher to the next that want to condemn us for praying in the spirit my poor pitiful friend it's a gift that the world didn't give and the world can't

take it away you can't knock it till you try it it's real it's real I know it's real if I could just get the words right if I could just Pastor I need you to teach me for the first five minutes what do I say and then the ne would you give me an outline I sure will I'll give you an outline oh I'll give you an outline oh it's the outline of the Holy Ghost it said it's the outline of the Holy Ghost he's the best prayer warrior in the world open up and let it repat a [Music] chip that's why some people's prayers are more effective than others some are

praying in the spirit Hallelujah woo Glory Hallelujah the Bible said when a man prays in the spirit he talks directly to God he bypasses his own language and he bypasses his own understanding and praise directly to God and the Bible said no one can understand what he's saying no Chinese man no Russian no one can understand that language that's a prayer [Music] language so if the only prayers God can are those according to his will somebody's got to teach you his will and the only one that can teach it to you is

himself that's why you got to be baptized in the Holy Ghost that's why you've got to let him pray because you'll never pray right oh no never pray right so if he cannot act contrary to his will so if I'm if I'm not not telling God anything that he doesn't already know and I wasn't going to make him change his mind about anything he's already made up his mind about then what was the purpose of prayer now these are questions that so many people ask that are watching live and I'm speaking to you what very few have ever taught you you need to grab

hold of this truth tonight in my prayer life I knew that God was not going to move contrary to his will for example if I pray right now God move them protesters out there and God says I sent them protesters to keep you on your toes then see in other words what's the purpose of praying then see imagine if you're God and you've got one person here praying please stop the rain and the other one said Lord we need the rain who's God supposed to answer so if you need rain just start praying in the Holy Ghost and whatever

God's will is is what's going to happen but your voice is going to bring it I see here's the part you've got to understand when God brings you to prayer all he's doing is borrowing the instrument that he needs which is your voice to release into the Earth what he's already said in heaven H thy will be done on Earth as it is in heaven that's why you [Music] pray so as a result of not understanding what prayer is we've all be come witches witchcraft means the use of magic or Supernatural power okay what is God Supernatural power yes

sir to change circumstances through the use of incantations that is what witchcraft is witchcraft says you want that boy to fall in love with you I'll pray a prayer for you I'll give an incantation I'll say words that will change that that person and every one of us have become witches because we didn't understand what prayer was we thought prayer was to change the mind of God to sort of nudge him into our direction to get him to change them bad people cuz God forbid it's us that could

be bad prayer is always praying about something someone else and never yourself that's what witchcraft is witchcraft says all right if you're sick I'm going to pray a prayer it's called a spell no different I'm going to pray to the goddess y'all pray to the God same thing we're just praying and I'm going to pray for your sickness to go away the believer prays if it be thy will let this sick go away that's the difference in Witchcraft and a believer's prayer until you quit using prayer for your magic wand shabam in the name of

Jesus oh you looked at me funny all my enemies be destroyed in the name of Jesus it's Witchcraft and it's in God's church and it's not the people's fault they don't know what prayer is they think prayer is to change God or the circumstance prayer is for God to get in you and change you to where you're okay with whatever he does that's what prayer is Hallelujah we control we want to control with our prayers we want to control with our prayers we want our husband or our wife we want God to get them straighten them out God when you

may be the Jezebel praying to God that's why you need to shut up and pray in the Holy Ghost because if you do not get the mind of Christ you will pray in the mind of self and it will always be to fix your situation to begin an effective prayer you must the Bible said I want to show you the difference in an ineffective prayer and an effective prayer The Book of Mark 11:24 mark 11:24 I want to show you how to pray

effectively to begin effective prayer life you must do the following Mark 11:24 therefore I say to you whatsoever things you ask when you pray believe if you do not have faith in prayer you will waste an hour praying yes that's what yua meant by repetitious PR prayers without faith y'all know that saying that Daddy has that's on your coffee cup I believe it you laugh at it sometimes not being you know we're not laughing but you you think it's cute and it is but it's the foundation of prayer if you believe when you pray if you believe now he didn't say believe that when you pray you're going to get what you prayed for believe that when you pray you're bringing his will into the Earth in that situation believe it that's why many times when I pray I say father you said in your word if we believe and father I do believe and then I pray without that Foundation you cannot have an effective prayer life brothers and sisters I want to now explain to you why God chose prayer I've talked about it last week I want to continue in it

tonight the destiny of the whole world was given in the power of prayer from man I want to say it again the Destiny of the whole world lies in the prayers of a man and if you don't believe that when you pray if you don't know that you're the calah of God if you don't know you're the official representatives of the Heavenly court on Earth if you don't believe that then you'll have to pray Our Father who art in heaven Hallowed be thy name thy kingdom come thy will be done in heaven but if you understand that when you pray you are literally bringing the

will of God on Earth you become the Lord's Prayer you don't say it you become it Hallelujah he said when you pray here's what will be involved for of all our father when you pray Our Father you're submitting as a child a hel prayer requires helplessness and hopelessness that you're depending on his will God placed this power in the hands of man to pray this has been your destiny Elder

Ricky homd from The Book of Genesis this has been your destiny the Bible teaches us how it was that God why would God trust Rick Connelly with the power of prayer why a broken man why if you don't know how to answer that it's because that's why your prayers are not being answered it's because you don't understand that there was one creature on earth that was given the Keys of the Kingdom prayer is that key and they was entrusted not to dogs not that no cat can pray no robot can pray there is one creature on planet Earth that was granted the power of prayer and you need to know why Hallelujah I'll tell you why it was given to you sister Chelsea why was such all gust power given to me to pray without you praying the destiny of the world will never come to pass that's why Paul said when you pray pray for all men because without you praying on the earth brother Von you mean to tell me God that's exactly what I mean to tell you I mean to tell you that God designed a plan that you're part of that's right and without you that's why he said I sought I had to find a man that's why men you need to get it together you you need to get it together men you need to become who God created you to be the Kings and the priest of the allmighty Yahweh on Earth how could it be I'll tell you how because he created man the only creature on earth in His image and his likeness when God created Adam Adam had two things he looked like God and he was like God he was created to pray to name the animals to rule the Earth in God's stead and your problem in Christianity is you become scared to death when we talk like this because oh you're elevating man no darling God elevated man God did that I'm just agreeing with what God

did Brother Carter he created you to do more than just work at Walmart that's right he created you you are not who they told you you are you're not a drug addict or a prisoner you're the very image of Yahweh way himself now I'm going to say something I love when women pray but there's Mighty something Mighty special about when men pray and I believe in the prayers of women and I I've seen their power but when you get a man made in the image of God that learns how to pray he'll move mountains with prayer that's why in the Torah it says when a woman prays if her husband don't like what she said he can undo it he said if a woman makes a vow to God did y'all know that was in your Bible if you're part of this church you should know it he said if a woman makes a vow to God her husband can undo it why he is the priest and God never overrides the priest hu now that's if he is a priest not some drunken fool not some adulterous devil but if he is a priest walking in Torah he has that power hallu walking in submission to the authority of God brothers and sisters the reason man was going to have external rule is because he was going to allow God to have internal rule image and likeness see I'm in the image of My Father John yvon just go look at his picture I'm In His Image but sadly I was in his likeness a lot as well you ever heard anybody say you just like your daddy that's the difference in image and likeness when God created Adam he had the image and the likeness he would rule the Earth in the place of God through prayer oh brother van I don't believe he prayed every evening in the cool of the day the Bible said the angel of the Lord would come and he would pray and talk to him somebody said it was God but if you go look at it it was the angel of the Lord that came because God doesn't come to Earth and not in his not in his Heavenly form he always comes through a proxy through an agency but he told Adam the Earth is Yours I want you to rule it through prayer amen but in order for that to work son you got to look like me you got to act like me matter of fact you got to be like me brothers and sisters I want you to hear me when the fall happened that power of prayer was broken watch this that's why the Nephilim could take over the world that's why the flood had to happen the power of prayer had left the Earth the Bible said If my people what if they would called by my name would just pray I would heal the whole land I would have never had to flood it if there was prayer I need men to govern through prayer I need their mouths so that I can speak through them on Earth what I've already said in heaven there's an inner agreement between God and man an incipient godlikeness which gave man the fitness to be the mediator between God and the whole world the man was to be a prophet a priest and a king he was to interpret God's will to represent Nature's needs to God to receive and dispense God's blessings that's why when a man of God listen to me carefully when a man of God those words mean so much more than you understand people get angry when we say don't touch the man of God they think we no no you don't understand do you darling if that man is carrying the divine order of Heaven and He blesses you if Frank Kendrick says he wants to lay hands on you and bless you you ought to lay on your stomach and get it why the he was ordained to bring God's Bounty into the earth when sister Ruth was alive I would getting her prayer line so she wouldn't even know I was doing it three and four times for her to just touch me Hallelujah because I understand brother Terell I would go to him and say would you bless me brother Terell why well that's just a man you poor fool you poor fool that is the king and the priest of Yahweh himself and when you touch him you have touched what he repres present hallu God is calling his men to arise and take their positions as you bear God's image you will bear his rule on the earth he was so much like God Adam was he was capable of entering into listen don't get lost tonight he could enter into God's mind and God's purposes and Carry Out God's plans on the earth somebody said brother Von God's Building a Church God ain't never built a church a man did oh God's building his church no he ain't we are now yes he is but no he ain't anybody with me God nope nope God ain't doing it go I'm doing it God put a purpose in my mind I I found his mind I went and hid and there and I saw what he wanted to do and I'm able to bring it back to the Earth and declare his will on the Earth that's why thank you that is why when you begin to get into the mind of God the blessings will open up over your ministry so much because now that God's trusted you with his purpose he's got to finance that purpose and if he can trust you with the plan he'll trust you with the p that's why when these poor creatures want to know where's the Taps money you couldn't handle knowing honey God knows where it is that's why he sends me more if he trust you with the plan he'll trust you with the pan you got to get into the mind of God I don't answer to fools I answer to Yahweh alone I don't answer to those that are under me I

answer to the one that is over me prayer is not the Cry of the supplicant for Mercy it's the highest fourth ping of God's will prayer is not begging

prayer is literally getting into the mind of God and staying there to where when you come out you can say what you heard and say what you saw and it will move mountains how many of you that's worked with me in the last two or three years out on the land how many of you's heard me say things and you're and secretly you would never tell me but you was sitting there thinking really you're going to do all that are you guilty how many times I went out there and said we going and and you're like y'all look y'all looking at each other

like he'll be gone in about an hour I had been in the mind of God he showed me what to build just like you showed Moses the Tabernacle in the Mind Of God he said do it the way I showed it to you in the heavens God told me to go out to that land and build what I believe the coming kingdom is going to look like what it's going to be like it's going to be filled with his animals it's going to be filled with peace and tranquility and Beauty everywhere that's what I'm building what I saw in the mind of God Hallelujah and to the poor fool that's

what the Bible called you not me that wants to know why I'm not physically doing all the work let me tell you something and I want you to hear me well some people go into the mind of God and get the picture and come back and say what's to be done without that man the work will never ever get done no matter how many workers you have when you drive on that land you're seeing what I saw three years ago and without me I'll say it just like that without me nothing would have been done because I saw what he showed

me Hallelujah amen that's somebody's got to get into his mind yes sir he he told me I want to build a place for my people to safely gather amen amen and so now some of y'all I told my wife today I said Tony the church has got to mature some more I said I'm worried because I'm being honest with you guys I never ever see the enemy they don't bother me I'm so far in the mind of God and and and I'm being honest when I tell you for those people that want to tell me what the neighbor out of the land did and I could his times his time's running out I could

care I've already been to the top of the mountain I know what's going to be nothing bothers me nothing I know what's coming it was like when we didn't have the money for it I know we didn't have the money but I saw what he saw that's right and if you'll learn to get behind a man that's seeing what God's showing I promise you the work will get done you'll look back how did we do all that with a Church of 10 20 30 people because God ordained [Applause] it as we work together in the mind of God that's why he told me to come here

tonight and clean house he said you don't need nobody dragging you down that's right you don't need nobody in this church I if anybody sends me one more thing they post I'm don't don't please don't y'all don't know the world I live in and it ain't this one that's right you understand I have no enemies I have no problems I've been to the top of the mountain I don't even know what's going on because I know what's going on when y'all pull up here and get nervous because you I I don't even see it I don't even see it like praise the

Lord why there's work to be done and anyone that can be distracted will be defeated keep your eyes on the prize you got to know where we going to endure where we are hallelujah oh Hallelujah when I was standing here preaching to five people I knew where we were going when I was building FH TV 10 years before you ever showed up buying cameras that nobody was watching I knew where we were going I didn't know how we were going to get there and I didn't know all the details cuz if I did I wouldn't need to pray oh Hallelujah but

I knew where we were going and here we are whop there it is come and every time you begin to move forward the enemy will show up you can ask my wife if you want to see me I knocked my lens out of my glasses bring me another pair if you don't I'm gon to have to stop preaching somebody's like don't bring him no glasses if you want to know what God is doing ask my wife how I act when people bring me what they're doing I start you ask my wife I change like that I become a creature you don't want to be around because you're messing with my

vision if you're asking me to pay attention to chickens when I'm trying to fly with eagles you're messing up my flight path you're messing me up I know where I'm going and if you don't plan to fly with me if you can't help me please don't stop me move out of my way and don't try to block me I don't want to hear it but if you want to fly with me you come right on and when we land when the kingdom of God you'll be thankful that you ignored every chicken that you ignored every quack of a duck that you ignored every complain of someone that's

carnal you'll be [Applause] thankful follow a leader follow somebody that's not affected by the things that happen every day follow somebody that knows where they're going and I go to every day trust the Lord that he's going to get us there yes sir I want to close tonight with this next thought when we enter into the ministry of prayer when you earnestly say I want to be a prayer Warrior two questions are going to confront you here's the first question how can I with all my weaknesses my history my past my imperfections my

limitations how can I influence God through my words and then the next question you're going to have is how does prayer work why is it needed but you see we don't need to understand how prayer Works in order to use it any more than you need to understand electricity before you can use it it may take time before you truly understand it I want to say to everyone watching me tonight if you don't know how to pray pray just pray I just gave you a boatload right there if you're waiting to find out how to pray just pray just kneel down and

cry oh God that's all that just just pray just pray my grandmother her favorite words I when she'd run out of words Mighty God Mighty God Mighty God Mighty God that's for Mighty God Mighty God and I'm like oh my God but see she was talking to a mighty God she didn't even know what to say to that Mighty God but it was mighty God Mighty God you don't need to know how to pray just pray know why you're praying and the how will come I want to explain why you need to pray if you have a piece of meat and you want to preserve that meat

for the next week you can't leave it on the counter you've got to take it to a freezing unit or the refrigerator and place that meat in that sphere of influence in that environment it's another environment it doesn't have the warmth of the world anymore you have transported it into another environment okay now when you put it in there it will begin to take on the qualities of those low temperatures and that coldness as long as it remains there it will retain the ice qualities and preserve it from decay and that's what happens when God lays

someone on your heart to pray for that's your piece of meat you will literally take that person when you call their name and you'll move them into another environment to preserve them see when my stepson was running from God and and his life was upside down his family kept him in the freezer I'm telling you if it wasn't for those three people praying that man would not be sitting where he's sitting tonight I promise you that somebody preserved him in prayer they took him out yes he may have been in this environment whatever

wherever he was but the power of prayer takes him and moves him into the refrigerator and as we keep him in prayer we're preserving him from rot and Decay because as long as we keep him in prayer we are literally keeping him preserved when it looks like God's not answering your prayer for the people you love keep that refrigerator door closed honey and you keep it cold keep it cold in there keep praying over that person and when God gets ready he will deliver them you got to put them in the refrigerator of prayer you got to move

them I never used to understand why my grandmother's children every one of them that left the lord Uncle Bo was the worst one that man had nine lives he would drink night and day and nothing could kill him my Uncle Bo is a legend in Columbia Mississippi here's why they have him on the newspaper the man was handcuffed and beat three police officers to death handcuffed in other words he was so bad I'm talking about behind his back his hands were handcuffed and beat three police officers why because of the life that he

had had to live on the streets of New Orleans literally made this man unreachable and when my grandmother began to die I'll never forget all her kids my Uncle Ricky different ones they all went to crying who's going to pray for me now you know why cuz they should have all done been dead but Mama kept them in a freezer Mama kept them in a freezer and protected them from the plans of the enemy until God could reach them until God could change them prayer preserves those that you love pray for them even if you can't change them

put them on ice and you say until you change I'm praying for you until you change I got a key and a lock on the refrigerator door I'm not letting you out of the cble of prayer I'm taking you into that unseen realm where the power is and I'm keeping you there every time I pray for you you sometimes we feel like we're so inadequate what are we doing to help people all we're doing is praying for them no darling if it were not for your praying for them they would not be in that unseen realm there's a supernatural protection over them because God servants are praying brother Michael when you get out there on a battlefield we'll have you in the refrigerator son do you understand somebody at home will be praying for you somebody at home will keep you in prayer you're placing them within the sphere of God's influence listen to me God doesn't work in the earth without man if you've got loved ones and you want God to work in their life you got to take them out of the earth and put them in the refrigerator you see you got to bring their name into

the Covenant of prayer all you got to do say their name say their name say father I place my so and so into this prayer closet I place them in the influence that you can reach them now because I brought them from the world and I'm placing them in your influence over their life that's the power of prayer you've got why do you think the Bible said when you pray pray for all men you think God's got you praying for all men just to pray for him he knows he can't reach them until you put them in the refrigerator until you transport

them from Satan's world into the prayer world and you the key to the Unseen realm is prayer when you pray you're placing them in that unseen realm Somebody Prayed for me I said somebody prayed for me Somebody Prayed for me somebody said brother V why do that isn't God everywhere isn't everybody under his sphere and influence no they're under Satan's influence why because Satan is the God of this world if you want your God to influence them you got to transport them to his world in The Crucible of prayer I can't explain how it

works but I just know it works sister Kendrick tells a story of her son in a car wreck and how that he was going down the road in lanja somewhere in that area and uh they've been praying for him every day and he hit a bridge I believe the hydrop plane and the guard rail is that correct on the bridge he was in a Z28 car and the guard rail he runs into the end of that steel guard rail and they said when they found that boy if I'm not mistaken it was right here or I mean right it come to the steering wheel and turned and went out the door Somebody Prayed for Kevin Kendrick God preserved him from somebody's prayer now see The Logical mind can't figure that out but what you don't understand there is another world outside of your logic where God works in faith childlike Faith Pastor doesn't God know all the needs of the world better than we do does he not love all people more perfectly than we can why does he need us to pray for them is he not in control of all things and can he not reach them sovereignly without our help let me

explain to you something God cannot even put I know y'all getting sleepy I'm almost done Yahweh cannot even put Donald Trump back in the white house unless you do it he gave Kim Clement the prophecy as a general that's right to awaken the prayer warriors to begin to pray over that prophecy and to bring president Trump into the refrigerator you understand that's why my God said I've stirred up the spirit of the people because I cannot do it without Maga I cannot do it without the people praying for it don't ever stop

praying yes God is everywhere yes his power is unlimited but I cannot emphasize to you how strongly that you you need to remember what I'm about to tell you God is so powerful that he can choose the funnel that he's going to send his power through is God not all powerful he's so powerful that he can say how he's going to display that power and how he's not going to display he's

so powerful that he creates a method or a man through which he's going to channel that power I've come to tell you yes God can reach your loved ones

without you but he chose to do it through uh you he said pray for all men because I cannot reach them without pray yes he can do anything and that's why he said I'm going to do it this way I've always wondered about that scripture it never made sense God said I sought for a man I'm like why do all through the scriptures he couldn't even release Paul and shiles from prison until Roa called a prayer meeting do you understand what I just said to you why did God wait so long cuz it took that long to round up the church to go

to Roa's house and begin to pray and when they prayed it brought Paul and Silas into the refrigerator and God was able to do the work through prayer amen you ought to pray [Music] sometime if you knew your power in prayer no one could stop you from praying hallu yet we run from prayer we run from it and that's your power God is always looking for a man let me tell you how powerful prayer is God sent a prophet to tell Nebuchadnezzar you got so many days to live I believe it was it Nebuchadnezzar Bel chazar Hezekiah thank you he told Hezekiah you got 15 years to live hezeki chose to go to that power of prayer Bible said he turned his face to the wall and begin to pray and God said any I wasn't going to kill you anyway I just we was a test now I'll let you live I just needed you to pray because I can extend your own life when you pray God choose somebody say Divine Transmissions Divine transmiss is electricity not everywhere but why can it only work through wires it's got to have a condenser Divine transmission electricity is all powerful

yes it's everywhere but it can't work without a fun all yes God is everywhere but he only works through the [Music] wires if he's going to reach somebody he's going to lay that somebody on your heart so you'll move them into the refrigerator so that his power can reach through them wires your prayers and do his will you ought to pray sometime God flows God's power flows through the wires the body of Christ I want you to hear what I just said God's power flows through the wires the body of Christ H it's when we pray

that his power is released in the earth H his will is released in the earth you ought to pray sometime hallelujah hallelujah I'm going to close with Colossians God's calling you to pray God's calling the church to pray don't worry about how long it takes or how short it takes just pray sometimes you can't pray but two minutes pray Colossians 4 I'm going to show you why people don't pray in the book of Colossians chapter 4 verse number seven Hallelujah I think know what no let's go

on the Hallelujah Colossians 4 well one scripture I'm looking for about must have the wrong scripture wrote down Colossians 4 I'm looking for uh someone that was working in prayer see if you see those scripture anywhere in there 12 there we go thank you there we go here's Paul he said aaas who is one of you a servant of Christ greet you always laboring fervently for you in prayer prayer is work you see that he Saidi want to tell you about brother epais he's always laboring in prayer for all of you

brothers that you may stand perfect and complete in the will of Yahweh for I testify on his behalf that he has a great Zeal for you with those in layad and those in aeropolis now what did he say about this brother epais he said it was work now why is it work because we're not laboring to convince God when y'all come into prayer sometimes and it feels like work let me tell you why it feels that way it's not because you're fighting with God sometimes it takes work to fight with yourself and to get out of your own self that's why sometimes you know when

I was growing up I used to wonder why we had some old Saints over there and they'd go to beating the wall oh and now see they was trying to they trying to they just trying to get out they're pressing into prayer they're sometimes you just see them in a corner shaking back and like what are they doing they're W they're laboring they're breaking through their own mind they're trying to get past their own thinking so that they can get into the mind of God sometimes you got to work in prayer you got to labor in prayer you've got to

fight in prayer but you're not fighting with God you're fighting with [Music] you Hallelujah prayer is work because we're working with God God let me show you what the work is Elder as I close the work is this working with God sometimes to work with God you got to quit working with you and sometimes that requires you you know I I used to wonder I get it now y'all didn't grow up in the old church like I did and I feel sorry for you but I used to wonder why they would wail and moan and groan I mean you'd hear them in the and you're like my God what are they doing the Bible said groaning in the spirit why they're trying to work with God uh they're trying to get out of their own desires uh and their own way of thinking they're pressing into prayer they're laboring in prayer to get into the mind of God that's why sometimes prayer takes time sometimes you just got to turn them lights off and you got to get you just got to oh God why because as you do it you're freeing yourself from your own mind Bible said they travailed in the the spirit why they were dying prayer sounds like death sometimes because somebody's got to die you're working with God why are you working with God because when you get into the mind of God you're going to hear what he has to say I want to make you a promise when you really pray here's what you brother Von why are they screaming like that I'll tell you what they're trying to get done they know tomorrow they coming to cut their lights off take their car back and they're going to lose everything they've got and so and what they're trying to do

is move into the other realm to where they can hear God say I got a better house waiting for you and I got a better job for you I've got this don't worry about it sometimes you got to pray until you move into that other realm that mindset of God what he say [Music] [Applause] prayer includes speaking yua said to the man stretch forth your hand when you're done honey come to the piano when you're done praying I want to tell you what's going to happen this is why the power of life and death is in your tongue because if you're speaking from

the carnal mind it's death but once you have prayed all of a sudden you don't have no more enemies all of a sudden everything you was worried about you're now happy about and when you come out of prayer if you'll go to speaking what you heard in prayer I don't care if you dying on a deathbed if God said you're going to live in prayer when you come out you declare I shall live and not die you begin to declare what you heard in prayer you have the power there's power in prayer let's all stand tonight you ought to pray we need to Love Prayer

learn to pray in all things woo would you come tonight Hallelujah pray is the key that unlocks the door that unlocks the door prayer will move a mountain prayer will move a mountain could not climb you could not climb before prayer is the way yes Lord that he hallelujah oh Hallelujah prayer is the only way is the only way that you'll make it through that you who make it through prayer is the key that unlocks every door that unlocks the door prayer can move a mountain prayer could move a mountain you could not CL before praise the only way a storm raging around storm raging around you pra the only way that you make it through
