

Please read the following before coming to Prom and share with anyone planning to watch you walk in!!

Prom walk-in (with names announced) will be held from **6:30 - 8:00** outside the Masters' Building, weather permitting. If the weather is only slightly rainy, please plan accordingly with umbrellas, etc. However, if the weather is truly inclement, we will modify the walk-in to under the enclosed porch of the building and inside the venue only. Walk-ins will end promptly at **8:00** so the dance can begin. At that point, we ask that everyone not attending the prom exit the surrounding areas.

→ **New Tradition Starting in 2025: We are asking the parents of SENIORS ONLY to join us for the first dance of the evening. We have a special musical selection for you to dance with your son/daughter. Once the song has played, we kindly ask that parents exit the venue to allow the Prom to continue. Thank you for helping make this Senior/Parent First Dance a success!!!**

*When you enter the fairgrounds in the vehicle you are driving through the prom line, please make an immediate left at the log cabin. Proceed along that drive until you reach the curve that you should follow until you turn right at the drive that will bring you up on the west side of the Masters' Building.

*To try to keep the line organized and have guests announced as they are getting out of their cars, we will have 3 traffic cones - (1) red, (2) yellow and (3) green - represented by the colored cones on the picture above where you should stop when you are on (1) deck (red), (2) up next (orange) and (3) at the spot where you should get out of your vehicle to be announced (green).

*At the time you exit your vehicle, please have someone ready to **immediately drive the vehicle away** to keep the line moving. You should then proceed up the tan colored walkway. **Please DO NOT stop and take pictures with your vehicle**, as this slows up the line and might prevent the dance from starting on time. Any pictures you would like to take with your vehicle should be done before arriving at the fairgrounds or before you get to the area with the three cones.

The public coming to view prom walk-ins should park their cars on the west side (closest to the road) in the fairgrounds parking area. Vehicles that are being left for prom attendees to drive home should be parked on the east side of the parking area, but back toward the trees to leave room for prom walk-in activities and viewing.
