

MEDICAL SKILLS FIELD STUDY
APPLICATION/TEACHER RECOMMENDATION FORM
FARMINGTON HIGH SCHOOL
2026-27

Medical Skills Field Study is a one-semester course, taken along with Medical Terminology during the same semester, and is designed to provide practical application to the concepts learned in Medical Skills A&B and introduce students to new skills required of entry-level healthcare professionals. Students will go to a local health care facility to observe and/or perform hands-on skills under the direction of on-site preceptors. Students are required to:

- ☐ Provide their own transportation to and from the off-site healthcare location (drive self/another student, parent drop-off, pick-up, student carpool).
- ☐ Provide evidence of up-to-date immunizations, seasonal flu vaccine, a negative TB screen, a criminal background check and other healthcare facility requirements.
- ☐ Upon successful completion of this course, students may be eligible to earn the Patient Care Technician credential.
- ☐ Demonstrate a high level of professionalism during classroom and clinical experiences. It is important that students consider this high level of professionalism and responsibility as they consider the commitment of this course.
