

## Group Work American Literature Sept. 4-7

### Date Due: To be determined

The fictional association of literary appreciation has chosen your group to throw a carnival during book week. Your assignment is to pick a literary theme and design carnival booths that support that theme. Your group will have one theme. Each group member will have their own booth. Each group member should be able to explain how their booth relates to the theme. Each group member should also be able to explain the tone (conveyed by the person running the booth) and the mood (experienced by the people who visit the booth). Be creative, but don't forget to be sensitive to others and respectful of differences.

Your group will design a google presentation to persuade the audience to attend your carnival and present to the class. Follow google presentation guidelines (on pictures, videos, etc.).
