

NUMBER 5

Subject: (name) you've become a star.

(name) take the spotlight and become the shining star in the (niche) industry.

To make (competitor 1) and (competitor 2) tremble with envy.

This will happen by adding a touch to your (product), that'll increase your customer base by at least 5% and your conversions by at least 3%.

How?

Introducing a tactic I call "conversation steroids."

With this tactic, you'll be able to target the group of people who want and need what you offer in your field.

To promote any product you are currently or want to promote and not grow but disrupt the market.

This will result in significant changes in your traffic and conversions.

You'll start noticing these changes within 4-6 weeks by driving more people to your brand.

Moreover, this tactic is easy to install and won't take much time. It'll help you keep customers coming back and tackle new ones.

Without doubting the effectiveness of your ads.

You'll double the number of ads you run knowing that you'll get a 2:1 return on investment within three months.

So, how does it work? How can you use it for your business?

As a result, I've made a video to clarify these questions.

Use it before others ride the wave ahead of you.

Let me know if you want to put this tactic into action.

Best regards,

Hadi.

Version 2:

The easter egg hunt.

Fadi find your own spot in the wellness industry to target the starving crowd and keep customers coming back.

The battle in the wellness industry is like an easter egg hunt.

If you follow what omar and ahmad are doing your basket will barely have eggs if it had any.

So, you have to find your own spot where batches of eggs are found in this case the audience.

How?

Well, there is a method I like to call "Conversion steriods" that'll help you find your own spot in the hunt.

By giving your audience a personalized experience into their own world and showing the level of understading you posses you'll increase your customer base by at least 5% and your conversions by at least 3%.

Moreover, by targeting specific angles to different kinds of customers you'll double the number of ads you run knowing that you'll get a 2:1 return on investment within three months.

So, how does it work? How can you use it for your business?

As a result, I've made a video to clarify these questions.

Don't wait until it's too late to use this effective tactic. Act now and let me know if you're ready to put it into action.

Best regards,Hadi.

Version 3: (the more human, creative some humor type of approach).

Hey there, (name)!

(name) takes the spotlight and becomes the shining star in the (niche) industry.

To make (competitor 1) and (competitor 2) tremble with envy.

But, here's the thing: you need to add a little touch to your (product) to increase your customer base by at least 5% and your conversions by at least 3%. And guess what?

I've got just the thing for you! It's a nifty angle you can target I call "conversation steroids."And no it's, some revolutionary trick that'll make you a billionaire in the next 12 hours.

But, it's an angle that'll help you target the group of people who want and need what you offer in your field.

It'll also help you promote any product you're currently working on and even disrupt the market. Pretty cool, huh?

The best part is that you'll start seeing noticeable changes in your traffic and conversions within just 4-6 weeks!

And the icing on the cake is that it's super easy to install and won't take up much of your time.

Now, you might be wondering, "how does this work?" Well, I've got you covered! I've made a video explaining everything in detail.

So, let me know if you want to put this tactic into action. Give me a shout if you want to know more.

Best regards,

Hadi

Version 4 (more informal,and funny, silly)

Hey there, (name)!

(name) takes the spotlight and becomes the shining star in the (niche) industry.

To make (competitor 1) and (competitor 2) tremble with envy.

But don't worry, you don't have to sell your soul to the devil or anything.

All you need to do is add a little pizzazz to your (product) and you'll be rolling in more customers than you can handle.

And guess what? I have just the thing to help you do that. It's called "conversation steroids," and no, it's not some illegal substance (don't worry, I'm not a shady drug dealer).

It's just a fancy way of saying that you can boost your customer base and conversions by 5% and 3%, respectively, with a little bit of strategic targeting.

But wait, there's more! Not only will this nifty angle help you promote your current products, but it might even disrupt the entire market.

And the best part? It's super easy to install, so you don't have to be a tech genius to figure it out. Plus, you'll start seeing results in just 4-6 weeks.

That's less time than it takes to train a puppy to sit!

I even made a video explaining everything so you don't have to strain your brain too much. I mean, who wants to read a boring old manual anyway?

Give me a holler if you're interested in taking an action plan.

Hadi

Version 5:

Look (name), I've gone through your website and took a look at (product).

Although you are doing a good job at getting your product out there in the (niche) industry.

Though, I don't think that a 5% increase in customer base and an extra 3% in conversions would hurt right?

Especially, if it's an angle you can target the starving crowd in the (niche) industry. To keep customers coming for more of what you have to offer.

And of course, it's not some angle that requires a Ph.D. in rocket science.

In fact, It's both easy and time-consuming because it will mainly depend on giving your audience a personalized experience (we all have better stuff to do than test ad campaigns).

Now, I'm going to be real here this isn't some crazy angle that'll make (competitor 1) and (competitor 2) go broke.

But, it will give a push in the game and it will take you about 4-6 weeks to see results.

So, I've made a video explaining what the heck I'm talking about.

Let me know if you have any questions.

Hadi

Version 6:

Hi (name),

I came across your website and was impressed by your (product/service). However, I noticed that your conversion rates could be higher, and I have a few specific ideas that I believe could help.

One tactic that I believe could be effective is creating more targeted landing pages for your website. By creating landing pages that are tailored to specific customer segments, you can more effectively speak to their needs and pain points, and increase the likelihood that they will convert.

Another idea I had is to run more targeted Facebook ads. By using custom audiences and lookalike audiences, we can more effectively reach potential customers who are likely to be interested in your product/service and increase the likelihood of conversion.

I have experience implementing these tactics for other businesses in your industry and have seen great results. I would be happy to provide more specific details on how we could apply these tactics to your business.

Please let me know if you're interested in learning more.

Best,

Hadi

Version 7 (under construction):

How are you doing Andrew?

A breakthrough in the sexual education industry will occur.

That you will be responsible for.

This revolutionary discovery will help you crush Sexplanations and Sex+ With Laci Green.

How? Well...

By analyzing the most significant companies in history. I noticed one thing they have in common.

It's not that they had a unique idea.

Gucci sells clothes, Ikea sells furniture, etc...

What made these companies grow is a method I call angel hypnosis.

This method works on the 4 big emotions to customers act immediately.

It also gives individuals a sense of need for the best they ever had course without you having to market it.

That is by impacting the brain's pain and pleasure receptors to the deepest levels to take action.

Despite having a great website, it does have some issues that need to be addressed, such as:
not focusing enough on the human motivators
lack of intrigue in the offer
absence of an irresistible offer

So after brainstorming some ideas I made a DIC email
that uses the method we mentioned.

Are you open to looking at it?

But be prepared to explain to your family that you are not selling drugs.

Cheers,

Hadi

Version 8 (under the constitution:

You're probably thinking.
Time for what has come?

The fitness industry will go through an unexpected shift after this.

Let me explain:

I was taking a look at your manage your diet like a bodybuilder course after hearing about it from one of my mates.

you are the real-life example of the buff dad.

After witnessing what Jeff Nippard and Lex fitness had to offer I noticed that you can outcompete them effortlessly.

Richard your path to becoming number one and leading the fitness industry is hindered by this roadblock.

But it can be resolved by a method I call Angel Hypnosis.

Angel Hypnosis works on humans' social and emotional psychology. To persuade customers to your manage your diet like a bodybuilder course.

This method works on reaching the deepest desires and traumas of humans to take action.

Making your (product) have 7x the value without changing anything.

That has worked perfectly with other brands I have associated with.

After brainstorming some ideas. I made a Loom video breakdown of your sales page going into profound detail using the principles of angel hypnosis.

Let me know if you're interested,

PS: Be ready to enter human persuasion's deepest, most profound part.

Cheers,

Hadi
