Amber Moise - <http://www.ambermoise.cikeys.com/> - I've gotten this far. Can't figure out how exactly to do anything else!

Amy Dobzynski <http://adobzynski.cikeys.com> It took me awhile to get started. Now I'm thinking about other websites I've visited and how I might like mine to look. I'm trying out a new theme I installed. I've not a fan of tons of "white space" on webpages, so I will likely go back and tweak it some more (change colors, add more photos, etc.) It's a start!

Bridget Banyai - <http://msbanyai.cikeys.com> I installed WordPress and Concrete, since I've used it in the past. I've changed to a nice theme and posted my first blog :) I tried to add a link (planned to link "Social media can be extremely valuable. Without other spaces in which to gather," to Danah Boyd's article). Happy with my progress so far!

Brittany Nuzum- <http://msnuzum.cikeys.com> My sight is up and I've chosen a theme but I'm not in love yet. Still working on improving it.

Catri Grisso - <http://mrsbarba.cikeys.com/> I'm working on the pages and I'm not sure, but I think my page is "not found" ... not sure why that happened, and I can't figure out how to go back to get it to work. This is the error message I receive when I try to view my 'About' page: 'The requested URL /index.php was not found on this server. Additionally, a 404 Not Found error was encountered while trying to use an ErrorDocument to handle the request.' -- Your married name!!! A month to go!! -Amber :)

Is it ok that I didn't use WordPress? I used ImpressPages. It has taken me some time to figure it out but I think I'm getting the hang of it. If WordPress is more user-friendly, I will use that instead. Thanks!

I finally got it to work!
