

The purpose of this document is to share ideas and links to websites and activities for teachers to use during the COVID-19 “shut down”. Give a brief (1-2 sentences) for what you use it for and why. Please only post items on here that are free, used by you and are not promoting a company’s product. This document will be monitored and items will be deleted if need be.

<https://www.ck12.org>

This website allows teachers to create their own textbook and assign students, readings, quizzes to take, videos to watch etc. I use this website as my class textbook.

Genius Scan App - Genius Scan is a free app. The app will turn pictures of documents into PDF files. These files can be emailed or uploaded to Google or any other web-based learning platform.

Edpuzzle.com (FREE)

<https://edpuzzle.com/>

EdPuzzle is the perfect tool for allowing students to watch and engage with videos while the teacher gathers data throughout the lesson. The quiz feature allows you to embed questions as students are watching the video.

Here is a [list of online resources](#) offering the premium versions for free during school closures.

This website has a plethora of activities, worksheets, and links to other websites all related to the human body.
