

## Search

Using *Science in Context*, I chose Advanced Search

Then I entered my keyword in the subject field. I could also enter other limiters to make my list shorter.

I find this article, which checks all my boxes:

Topic relates to chemistry

**The Flavor of Serendipity: Experience with the taste of ibuprofen led to the identification of anti-inflammatory properties in extra-virgin olive oil**

**Author:** Gary K. Beauchamp  
**Date:** May-June 2019  
**Recent**

**From:** American Scientist (Vol. 107, Issue 3)  
**Publisher:** Sigma Xi, The Scientific Research Society  
**Magazine, not a journal**

**Right length**  
**Document Type:** Article  
**Length:** 5,655 words  
**Content Level:**  (Level 5)  
**Lexile Measure:** 1350L

**Browse**

Using Science in Context, I chose Advanced Search

I look at the Science Journal spreadsheet and choose the publication I want to browse. I choose Publication Search and then type the name of the magazine I want to browse into the search box.

Click Search and then click on the hyperlinked title of the publication you want to browse.

This will open up links to each month's issues and you can browse recent table of contents to find an article of interest.
