

Restore Google Classroom

July 1st, Technology will be archiving all Google Classrooms. We are doing this because when a classroom is not archived, the students remain in that Classroom. Having too many Classrooms on their main page makes navigation difficult. This is to help students easily maneuver Google Classroom and assist teachers who don't know how to archive.

Some teachers, administrators, club advisors, or coaches want to keep their Classrooms active from year to year. You can RESTORE your Google Classroom after we archive it. This will bring back your Classroom (students, classwork, materials, etc) just like new!

1. Navigate to the **Google Classroom** page classroom.google.com

2. On the left side of the page under **Main Menu**, scroll down to  **Archived classes**

3. Find the Classroom you'd like to restore. Click on the three dots in the top right corner of the tile. Choose "**Restore**."
