

THE STEWARD SCHOOL

Honors PreCalculus

Summer Work 2026 (updated May 1, 2026)

- **due date:** Monday, August 31 (first day of class)
- **estimated time:** 5 hours (for planning purposes only; work until you finish)

Dear Honors PreCalculus students,

Welcome to summer math the **Delta Math** way!

This assignment is designed for you to review the skills essential to success in Hrs PreCalculus, especially during the first month of school. The assignment consists of problems on DeltaMath.com.

- Join using the following link: <https://www.deltamath.com/students?code=MN8U-P8N2> and then click “Sign up with Google” using your Steward email address.
- Complete the summer work assignment posted for the Fall 2026 Honors PreCalculus class.

All the sections should be completed by the first day of class. On the second day of class, you will go over any questions that you may have. Make sure to record your work along with questions you encounter along the way (you will be required to upload pictures of your work into Delta Math as part of the assignment). After that you will have a short paper quiz with problems taken directly from the Delta Math sections.

Summer math grade components:

- 10% uploaded work
- 40% completion
- 50% quiz grade

We are really looking forward to the upcoming school year and hope you are, too! **Please email any of us if you have questions about the skills or the process.**
