Example

	Limiting Perspective	Supporting Perspective
Event	<i>"I have a ticket for the next Bits&Pretzls."</i>	
Thoughts	<i>"I'm introverted and hate conferences."</i>	"I love conferences, I meet inspiring people there."
Feelings	Fear, panic, loneliness	Anticipation, enthusiasm, community
Behaviour	I skip the conference. I go and laboriously force myself to talk or hide in lectures.	I connect with people I want to get to know before the conference and make appointments with them.
Result	I'm exhausted and haven't met any new people.	I'm super happy because I got to know 10 new people and had some great conversations.
Inner Belief	I am totally incapable of making contact with others.	I am able to meet new people.
