

## Field Station Survey – Spring 2014

Q1 Thank you very much for taking time to respond to this brief survey regarding the status of biodiversity specimen collections held in biological field and research stations in the U.S. Your responses will help iDigBio, the U.S. National Science Foundation's national resource for the digitization of biodiversity collections, better understand the breadth and diversity of natural history collections in the United States. If you have questions about the content or use of this survey, please contact Gil Nelson via email at [gnelson@bio.fsu.edu](mailto:gnelson@bio.fsu.edu).

Q2 What is the name and address of your field or research station?

Name  
Address  
Address 2  
City  
State  
Postal Code

Q3 Does your field or research station house one or more biological specimen collections (e.g. an herbarium, vertebrate skin collection, bird egg collection, etc.)?

- Yes  
 No

If No Is Selected, Then Skip To Please provide your name and contact ...

Q4 Please provide a rough estimate of the number of specimens in each collection your station supports.

Botany/Herbarium (Plants)  
Herpetology (Reptiles & Amphibians)  
Ichthyology (Fishes)  
Invertebrates and/or Arthropods (Insects)  
Invertebrate Paleontology (Invertebrate Fossils)  
Lepidoptera (Butterflies & Moths)  
Mammalogy  
Malacology (Mollusks)  
Marine Invertebrates  
Mycology  
Ornithology (Birds)  
Paleontology  
Paleobotany & Palynology (Fossil Plants & Pollen)  
Vertebrates  
Vertebrate Paleontology (Vertebrate Fossils)  
Other. Please describe.

Q5 Please provide your name and contact information so we can follow up with you via email.

Your name (first last)

Email

Q6 Thank you for your participation!
