

Privacy Policy

Primary School Math Worksheets

Last updated: July 28, 2026

This Privacy Policy explains how Primary Math Worksheets handles information when you use the app.

1. Developer

Primary Math Worksheets is developed by Krius Design.

Contact:

kriusdesign@yahoo.com

2. Data We Collect

The app does not require users to create an account.

We do not collect, store, sell, or share personal information such as name, email address, phone number, precise location, contacts, photos, or messages.

The app may store the following information locally on the user's device:

- selected app language;
- selected worksheet theme;
- number of free PDFs generated;
- premium unlock status;
- generated PDF history;
- PDF files created by the user inside the app.

This information stays on the user's device and is not sent to Krius Design.

3. Generated PDF Files

The app allows users to generate math worksheet PDF files.

Generated PDFs are saved locally on the device. If the user chooses a custom file name, that file name is stored locally as part of the generated PDF history.

Users can delete generated PDFs from inside the app.

4. In-App Purchases

The app may offer optional in-app purchases to unlock premium content, such as individual grade levels or all available grades.

Purchases are processed by Google Play Billing. Krius Design does not receive or store payment card details.

Google may process purchase-related information according to Google Play's own policies.

5. Advertising and Analytics

The app does not contain third-party ads.

The app does not use third-party analytics services.

6. Children's Privacy

Primary Math Worksheets is an educational app intended for primary school math practice.

The app does not knowingly collect personal information from children. The app does not require account creation, chat, social features, or user-submitted personal profiles.

7. Data Sharing

Krius Design does not sell or share user personal data.

Data related to purchases may be handled by Google Play Billing as required to process in-app purchases.

8. Data Retention and Deletion

Local app data remains on the user's device until:

- the user deletes generated PDFs inside the app;
- the user clears the app data from device settings;
- the user uninstalls the app.

Because the app does not create user accounts or store personal data on Krius Design servers, there is no server-side user account data to delete.

9. Security

The app stores its local data using standard Android app storage mechanisms. Generated files and preferences are stored locally on the user's device.

10. Changes to This Privacy Policy

This Privacy Policy may be updated from time to time. Any changes will be posted on this page with an updated "Last updated" date.

11. Contact
