

Elured and Elurin - LotRO Arda - Peredhel ($\frac{5}{8}$ Quendi, $\frac{1}{4}$ Atani, $\frac{1}{8}$ Maia) - rescued from the Sack of Doriath by Tirithoron and Vylsalath during time-travel shenanigans aided by Vairë (the First Age is Way Too Long Ago (6000-something years of the Sun) for Pernese dragon time travel unless assisted by one or possibly more of the Valar), the twins end up splitting their time between Rivendell and Lothlorien while they finish growing up enough to be candidates, at some point the Feanori who get sent off to “do community service”, i.e. be someone else’s headache somewhere else, also end up mostly living in Rivendell because the other major groups of Quendi are probably still holding grudges against them to some extent, Maedhros is both irked with Tirithoron for not telling him about the rescue (not that Tirithoron probably could have) and really glad that somebody saved the twins from dying of exposure, twins are old enough to become candidates and determined to do so, though they insist on applying to different clutches to stand for
