Needville Middle School

MEN IN THE MAKING

Club

Have you ever wanted to learn how to change a tire, start a fire, or how to impress a young lady? Then the Needville Middle School Men in the Making club is for you! The focus of our club throughout the year will be on teaching our students information and skills that will help them grow into respectful, and well-rounded young men. We will touch on topics such as work ethic, sports/recreation, food/cooking, tools/you-fix-its, as well as introducing them to men who have made an impact on the world.

We will meet after school every Tuesday in the library starting the 2nd week of October. If you are interested in joining the club, please stop by the front office and/or see Mr. Janecek or Mr. Valentine.
