

New Albany - Plain Local Schools Teaching & Learning

Updated 4/28/2020 - this will be updated as new resources become available.

Questions/Comments can be directed to Director of Elementary Education Scott Emery at emery.3@napls.us

Additional Resources for Home Use

With school closures occurring across the country, many educational resource companies are making their content available at no-cost to assist students. If you choose to use any of the online resources during the school closure, please know the school district staff cannot provide technical assistance since these are not software programs we typically use. The list is being provided as a resource for those parents who choose to provide work beyond what the teachers are assigning.

Educational Resources

Links: [Educational Resources](#) ; [Ohio Stem Network](#)

These are listings maintained by external organizations of educational resources that are available during the school closure.

Rosetta Stone

Link: <https://www.rosettastone.com/freeforstudents/>

Offers foreign language instruction (as well as English instruction for students in the English Language Learner program) for free during the closure. Requires a parent email address to create a student account.
