- You will receive a quote, a spot for commissions if your form is accepted. I have the right to decline any commissions I want.

Additional cost may appear with more detailed designs and poses, or additions to the artwork.

-The commission will not be started until full payment is received. I do not do refunds unless there are issues with finishing or other special issues.

-The commission will be uploaded to certain art-sharing networks by default, so tell me if you do not want me to upload your commission.

-You are allowed to repost and use the original work as the commissioner, but credit is appreciated.

-Please do not use or repost art that you have not commissioned.
