REPORT ON EARTH SCIENCE WEEK 2023-2024

Event Overview:

Title: Geology and Geoinformatics Seminar Competition

Dates: 09-10-2023 to 14-10-2023

Venue: Geology Lab

Audience: UG Students (Semesters 1, 3, and 5) and PG Students (1st Semester)

Purpose of the Seminar:

The seminar competition was organized as part of Earth Science Week to encourage undergraduate and postgraduate students to engage deeply with their geological studies. The event aimed to provide a platform for students to explore and present topics from their syllabus, fostering an environment of academic excellence and scholarly discussion.

Participants:

The competition included students from various semesters:

- **Undergraduate Students:** Semesters 1, 3, and 5
- **Postgraduate Students:** 1st Semester

Event Structure:

1. Preparation Phase:

- Students were assigned topics based on their syllabus and given time to prepare their presentations.
- Each student selected a topic that aligned with their course material and conducted extensive research.

2. Presentation Phase:

- Students delivered their presentations in the Geology Lab over the course of the week.
- Each presentation was allocated a specific time slot, with students providing insights into their chosen topics, discussing key concepts, and highlighting their relevance to the field of geology and geoinformatics.

3. Evaluation Criteria:

- **Content:** Depth of knowledge and relevance to the assigned topic.
- **Clarity:** Ability to convey complex information effectively.
- **Engagement:** Interaction with the audience and responsiveness to questions.
- **Visual Aids:** Effective use of multimedia and visual elements to support the presentation.

Key Highlights:

- **Diverse Topics:** Presentations covered a wide range of geological subjects, including mineralogy, stratigraphy, Economic Geology and geoinformatics applications.
- **Student Engagement:** The seminar saw enthusiastic participation from students who demonstrated a strong understanding of their topics.
- **Expert Feedback:** Faculty members provided constructive feedback, helping students refine their presentation skills and deepen their knowledge.

Outcome:

The seminar competition was a success, achieving its goals of enhancing student learning and engagement. It provided an excellent opportunity for students to delve into their subjects, develop their presentation skills, and gain valuable feedback from peers and faculty.

Conclusion:

The seminar competition not only showcased the students' academic abilities but also reinforced the importance of effective communication in the field of geology. The event was a significant educational experience, contributing to the overall academic growth of the participants. The department looks forward to organizing similar events in the future to continue promoting excellence in earth sciences.
