

Letter to 11th Grade Parents/Guardians

If you are receiving this letter, your child needs the Meningococcal vaccine. Exclusion date for next school year is Monday, October 14, 2024.

DATE: _____

SUBJECT: Meningococcal Vaccine

Dear Parents/Guardians,

Beginning with the 2016-2017 school year, the Ohio Department of Health School Immunization Requirements have been revised to include two (2) doses of Meningococcal (MCV4) vaccine to be administered before a student enters the 12th grade.

The second (2nd) dose of MCV4 must be administered on or after the 16th birthday with at least eight (8) weeks between the first (1ST) and second (2nd) dose. If the first dose of MCV4 was administered on or after the 16th birthday a second dose is not required. If a pupil is in the 12th grade and is 15 years of age or younger, only one (1) dose is required.

Therefore, your current 11th grader will need to show proof of having received the Meningococcal (MCV4) vaccine(s) before they can return to school in the fall.

You are receiving this letter now to provide you with ample time to have your child immunized before the coming school year begins. Please contact your physician or health department to schedule an appointment.

Please provide the date that your child received the vaccine(s) to the school clinic.

_____ received the Meningococcal (MCV4) vaccine
