

Did you had enough of crows and other birds eating your harvest? There is a simple but very effective way to make birds even scared to think about getting near your hard earned harvest.

No, it is not by putting a big ugly scarecrow.

And no you won't harm or hurt the birds.

It is way simpler and easier to apply and the best part is that it won't take much space from your garden.

It takes only a couple of minutes to make your garden grow in peace without birds interrupting

 Click the link in my bio if you want to keep your garden safe from all birds
