

Lunereest Guest Artist Information

HELLO!!!!!! Thank you for becoming a Lunereest Guest Artist!!!!
WE ARE SO PLEASED TO HAVE YOU!!!! Please refer to the rules below for guidance on being
a Lunereest GA~

A quick breakdown of some rules:

- You can use any amount/mixture of traits besides hallowed traits. You may only use one hallowed trait per design.
- You may include items or companions but not enchanted artifacts. Some pets are limited and not able to be used so please run it by a mod if you plan to include a companion!
- Guest artists can take fully common customs, extra traits must be provided by the user or GA via trait items.
- Guest artists may not take more than 3 customs without finishing their current queue.
- Guest artists are expected to finish custom commissions in a timely manner, if users begin to complain about a guest artist's wait times, guest artists are subject to being let go.
- Guest artists must behave in a kind and professional manner towards our users, other guest artists and the mod team, artists that break rules/behave poorly towards users are subject to being let go.
- Guest artists are allowed to use their own bases for customs and adoptables.
- Lunereest will not take a cut of the profit from guest artists.
- In exchange, guest artists are expected to make at least ONE free raffle, charity design or charm design per year.
- All customs must be at least \$45, but artists may charge more if they would like to, undercutting fellow artists will not be tolerated.
- Feel free to do sales outside of events/advents/celebrations!!!! I'm not going to have a hard limit on how many designs you can sell but if the economy becomes oversaturated/starts to suffer I might have to make limitations.
- Guest artists must maintain an honest and open rapport with the mod team, please let us know if you're unable to complete work for any reason. We are here to help!

-Guest artists may step down at any time but must either complete their work if they have taken customs/promised an adoptable or found another artist/mod to help them with their work.
