

U1O2 News Report

STEP 1: You are going to create a news broadcast. To do so create your script following instructions from your teacher. Write your final script here:

News Broadcast Script

INT

It's time for the _____ news with _____ (A)
and _____ (B).

Item A - 1

Good Morning, today's top stories are...

- New ... _____
- The question remains the same as... _____
- Plus we will... _____
- Stay watching for... _____

ITEM B - 1

ITEM A - 2

ITEM B - 2

I now cross to _____ (name) on the scene who says...
Over to you.

LIVE CROSS

EXT

Thanks _____ (B2 name), I'm here in _____...

ITEM A - 2

INT

...and now _____ (name) with special report on
the weather we cross to _____ (place).

WEATHER GIRL

Thanks _____ (A1 name) and good morning it's a chilly one in...

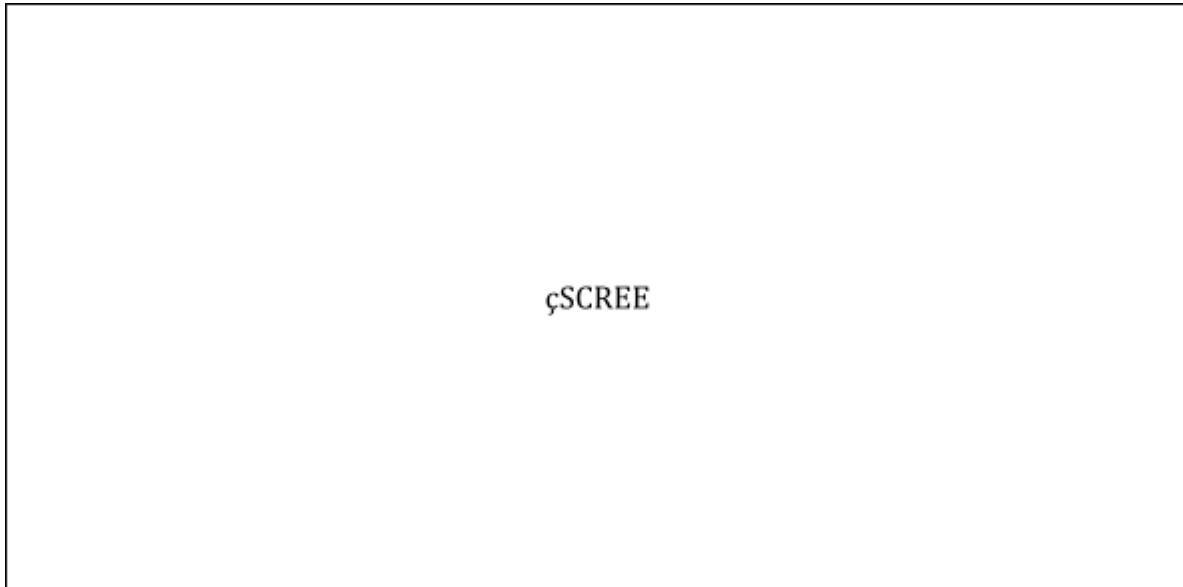

ITEM A - 3

You've been watching _____ and you're with _____
(B name) and I'm _____ (A name). See you tomorrow...
_____ (sign off saying)

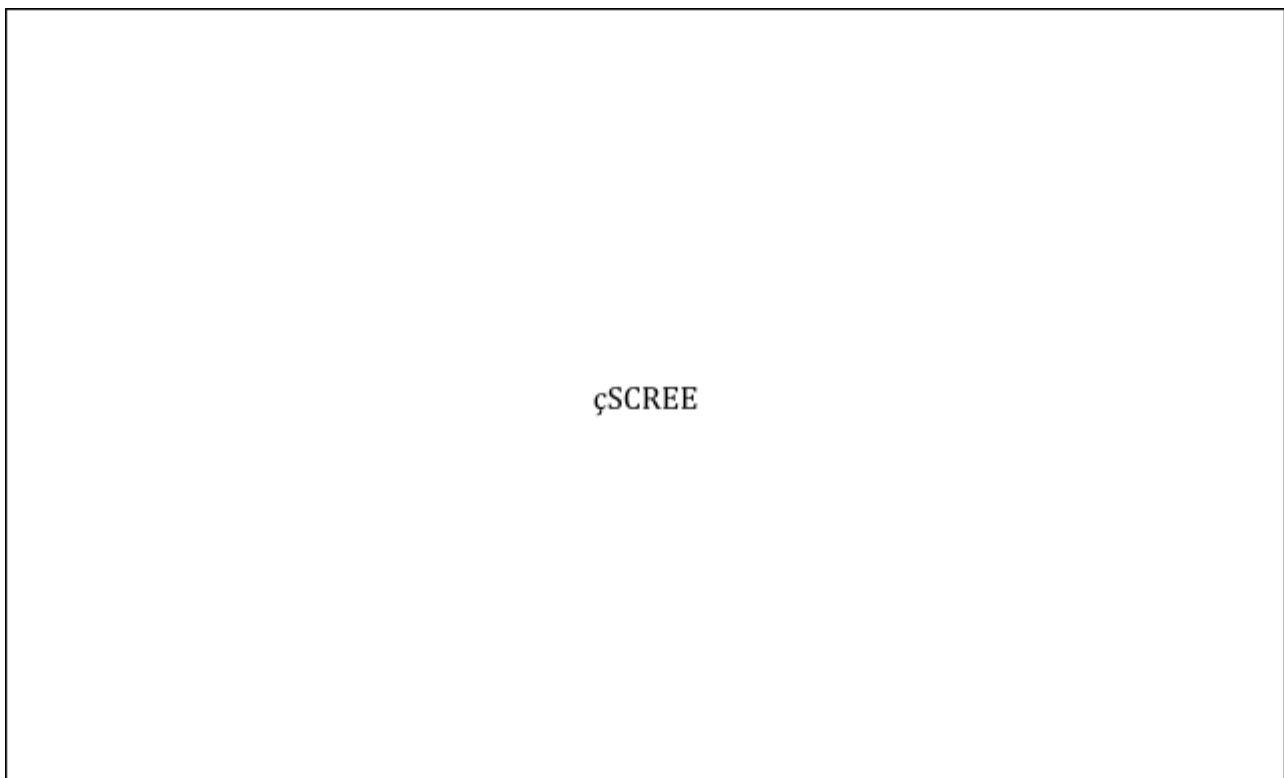

END

STEP 3: FILM! Consider all of the tips you have been given from the tutorials. Lighting and sound will make a big impact on your final product. Explain what YOU did during the filming here:

Include a still shot of the original filming here:

STEP 4: Individually copy the files from the camera onto your hard drive. You need to set up your files correctly. Follow the steps you wrote in your notes to remove the green screen. Save a screenshot and paste it here:

Explain what you did in this stage:

STEP 5: Now you need to add backgrounds to suit your news broadcast. Search on google for HIGH quality images, save them correctly and import them into your project. Complete editing your project and correctly export it.

Print at least one image from your background and stick it here:

STEP 6: Submit! You need to submit your final mp4 file with your name and the title 'U1O2 New Report'... for example '*Green Screen Assessment Task – Jo Smith*'. Hand in your folio also.
