

ENGAGED

Parent Awareness for Student Success (PASS)

Parent Engagement Sessions
2018-2019 School Year

Information is Subject to Change

What is the goal of Engaged: Parent Awareness for Student Success (PASS)?

Our goal is to support, to increase parental engagement and to empower parents to raise children who are successful in school and in life.

What is Engaged: Parent Awareness for Student Success (PASS)?

The Brunswick City School District “B” Engaged: Parent Awareness for Student Success (PASS) will offer a year-round schedule of information sessions/series that are focused on providing information to parents and community members about the Brunswick City Schools, academics, student health and wellness, and much more. PASS has been developed to assist families with the skills, knowledge, and resources that they need in order to navigate school and create a strong partnership between home and school. This partnership is our way to support parents in the very difficult and important job of helping children reach their full potential. The PASS series will include topics on parenting, teaching & learning, health & wellness, transitions, college & career readiness, technology, social media, and much more. The presentations will be done by BCSD teachers, administrators, community partners, and local/state presenters. While the sessions do list a target audience, **every session is open to anyone who is interested in attending.**

Why is it important for Parents to be Engaged?

Research has provided evidence that parental engagement has a positive impact on a child’s academic performance and social competence. It has been proven that strong partnerships between families and school districts result in student success, both academically and socially. There are many benefits to parents being engaged:

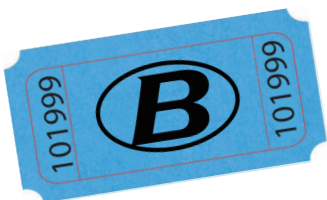

- Increase in student achievement
- Higher grades and test scores
- Increase in graduation rates
- Decrease in drug/alcohol use, violence and antisocial behavior
- Bridge the gap between home and school

Registration - Each session has a registration link listed and we encourage you to register for any session(s) that you plan to attend. Registration will help the district plan for the appropriate number of people. **Forget to register? No problem! You are still welcome to attend and participate.**

Childcare - Childcare will be provided when possible and will be noted by the session information.

Resources - Interested in a session, but are not able to attend? Don’t worry! Any resources, handouts and information presented at the session will be linked in this catalog after the session takes place.

Check Back Often - More sessions will be added throughout the school year. Don’t see a specific topic listed? Feel free to submit an idea using this form [here!](#)

Attend multiple sessions and earn some Brunswick swag! Blue tickets (pictured left) will be passed out at each B Engaged session. Collect three tickets and bring them to the Brunswick Board of Education for a goodie bag!

AVID: Turning Potential Into Success

AVID is a new program initiated last year. The purpose of AVID is to identify 8th grade students that are in the “academic middle” and then support those students with the pursuit of college preparatory courses in high school. Students in AVID are required to take at least one advanced class each year and an AVID elective course for support. Students receive guidance and learn strategies on how to manage upper-level courses through all four years of their high school career with a team of staff members dedicated to the AVID process and the success of the student. Attendees will learn about the goals and philosophy of AVID, the selection process for participation, requirements, and what high school life will look like for AVID students.
