

MONOPOLY

Don't sue
me

Updated Rules play like normal Monopoly

This Version Adds:

Motels

Power Plants

Skip Stamp

Free Parking changes

And more!

Power Plant

The Power Plant is Balanced like a hotel. But for Utilities. Utilities are never seen as a real way to make money and are often seen as awful or unprofitable. For 500\$ you can purchase 1 Power Plant, multiplying the price by 5. So if you own 1 utility, which is 4x the roll of a dice, then your new price is 20x the roll of the dice. Once you own all 3 Utilities the cost of each becomes 100x.

Motel

A motel is a property built like a standard house, but you don't need to own the entire set to build it. A motel is the price of a normal house on a specific row. A motel will charge 10x the baseline rent of your property.

Example: New York Avenues' baseline payment is \$16\$; with a motel, it is \$160\$; that being said, a motel would cost \$100\$.

Free Parking changes

For this version with the new additions to the game, More money is added to free parking. At the start, 100\$ is put in, and every time somebody hits the space, 100\$ is put back in, plus another 100\$. So the second time 200\$ will be in, the after the third 300\$, and so forth. For every player that is eliminated, the moment they are pronounced out of the game, 500\$ is added to the space for a one-time payout.

Skip Stamp

The Skip Stamp is the only feature that may vary across Monopoly versions: in Standard Monopoly, you receive it by landing directly on GO (not from "Advance to GO" cards), while in Mega Monopoly, it's an option in the Birthday Gift space, replacing the \$100 gift.

The Skip Stamp is useful when the Mr. Monopoly on the Speed Die becomes a threat. It can be placed on any of your properties, making it unaffected by Mr. Monopoly. Once placed, it can't be moved, though you can remove it, permanently discarding the stamp.

For example, if you own the Yellow set with hotels and B&O Railroad, but Mr. Monopoly keeps landing the other players onto the railroad, placing the Skip Stamp on the railroad makes them skip it, sending players to your Yellow set instead. The Skip Stamp basically boosts rent collection.

Jail Rules

Now whenever you go to jail, you are unable to do certain things. You cannot Build or sell any houses or properties (this includes mortgaging properties). You are also unable to collect rent on any colored properties (the Properties that you can place houses and hotels on). However, you can still collect rent on Utilities and Railroads. No Bus Tickets can be used directly out of jail.
