	<p>I started to teaching at my studio in 2019, but no longer available due to COVID 19, so changed to the online class in 2020. My students are all beginners and Japanese/English speakers.</p> <p>I belong to Master Gardener in Snohomish County (Washington State University Extension Master Gardener program) since 2010. I do volunteer for community gardens and clinics. Also I am growing all kinds of perennials, annuals, bushes, and trees at my 5 acres property. I advise good choice of Ikebana materials and gardening tips to my students. Most students love gardening too.</p> <p>I love botanical world, nature, and Ikebana!</p>
