2.2.1 If you are cheating with your age and breaking rule 2.2 - this may cause disclamation of further working with your commissions.

2.3 To make a commission you should choose type of work (portrait, half-body, full-body) and message me using any contact, I left before.

Note: Discord is recommended to contact with me. Please, use simple English words and phrases (English in not my native language).

2.4 After contacting me, next stage will be further agreement of artwork between artist and customer(s). At the end of this stage there will be short sketch of future work.

2.5 The things I will draw and won't draw is here:

I draw:

- Feral and anthro Dragons
- Feral and anthro Furries

I don't draw:

- Humans and humanlike creatures
- Blood, Gore
- Creatures with disproportionate anatomy (too fat for example)

Note: if you don't find anything in the list you can contact me and ask.

2.6 All my artworks and commissions will be uploaded on Furaffinity and vk group with watermark and links. But you can take a private commission without watermark and this work won't be published anywhere.

2.7 Reference sheet or artwork with your character is highly recommended. I can work also with description but it would take more time to finish this artwork.

2.8 You can get WIP (work in progress or simply the screenshot of working) at any time. I oftenly contact customers during the work and showing them progress, so you can easily check progress and ask for changes if needed.

2.9 After getting sketch of the future artwork – the next stage will be the payment.

3. Payment and refund:

3.1 Payment can be accepted only in USD and via PayPal or my Boosty. The price for arts you can get here: <https://www.furaffinity.net/view/48724847/>

3.3 Full payment is recommended. You can get partial payment before the work is done, but final art will be shown only after 100% full payment.

3.4 Price on the artworks is shown in the price list:

3.5 I DO NOT ACCEPT refund because of technical issues. It's difficult at the moment to return money cause of sanctions. So, please keep in mind if you work with me.

3.6 Some special rules of commission can cost extra payment with commission:

- Complicated armor, mechs, machines: +10-25% of final payment.
- Deadline in less than 2 month (in order if there are other customers before you in queue): +10% of final payment.

Note: Final payment is base price + additional price for background, complex characters e.t.c.

4. Deadlines and working time:

4.1 Minimum working time on one of my artwork is:

- Portrait, Sticker – 2 days;
- Half-Body – 5 days;
- Full-Body – 7 days.

This is minimal time I need to finish one artwork. Final time depends on difficulty of artwork commissioned from me and queue.

4.2 Working time begins after we get fully agreed sketch and artist – his prepayment.

4.3 I am working on Furaffinity with slots. It means I usually take only limited number of commissions. But if you don't find any slots opened in TO-DO list, feel free to write me and ask. I can take commissions in individual order even when there are no slots left. It depends on how much work left.

4.4 Usually, I don't set deadlines on my work. But commissioner can set data when artwork should be finished. You should warn me in 3-4 weeks before deadline data.
