Please spread the word.

This is literally the most important news of our time.

Amendments to the International Health Regulations will leave nearly 200 countries at the behest of the W.H.O.
There have been links between Gates and the CCP for a long time and Gates is also the 2nd largest donor to the W.H.O.

NB: Please note that this is a Google doc. The link will appear after you click it for the first time. I will try to get this to a website as soon as I can.

The language used is interesting:

Interesting article on Gates' links to the CCP:
Bill Gates' 'DEEPLY TROUBLING' Ties to the CHINESE COMMUNIST PARTY

- Feb 2022

"Where Gates begins to run into trouble is his unexamined assumption that national governments will give up control at pivotal moments to an international organization. The genesis of the COVID-19 pandemic teaches us that those governments may even insist there is no threat to address. In his book, Gates never mentions that Chinese leaders spent one month denying there was an outbreak at all."
