

Operational Framework

Public Safety

- i. **Law Enforcement:** This refers to local police departments and their efforts to prevent crime, enforce laws, and maintain public order. They respond to emergencies, patrol communities, and investigate crimes.
- ii. **Fire Department:** Fire departments are responsible for responding to fires and other emergencies, often including medical emergencies. They also play a role in fire prevention through public education and inspections.
- iii. **Emergency Services:** This includes ambulance services and emergency medical technicians who provide immediate care for the sick and injured, and transport to medical facilities.
- iv. **Disaster Management:** This involves planning and response efforts related to natural disasters (like hurricanes, floods, or earthquakes) or man-made disasters. It includes emergency preparedness, disaster response, and recovery efforts.
- v. **Public Health:** This involves efforts to prevent disease and promote health at the community level. It can include vaccination programs, health inspections, mental health services, and more.
- vi. **Traffic and Road Safety:** This involves the management of road networks and traffic to ensure safe and efficient travel. It can include traffic law enforcement, road maintenance, and traffic engineering.
