

Privacy Policy for Salary Cycle

Last updated: November 20, 2025]

1. Overview This Privacy Policy explains how the "Salary Cycle" application ("we", "us", or "our") handles your information. We are committed to protecting your privacy. The core principle of our application is that your data belongs to you.

2. Data Collection and Usage We do **not** collect, transmit, or store any personal information on our servers.

- **Financial Data:** All transactions, periods, salary data, and tags you enter are stored locally on your device using Apple's on-device storage technologies (SwiftData/CoreData).
- **No Account Required:** You do not need to create an account or log in to use the application.
- **No Tracking:** We do not use any third-party analytics SDKs (like Google Analytics or Firebase) and we do not track your usage behavior.

3. Data Storage All data created within the application is stored strictly on your iOS device. If you have iCloud Backups enabled on your device, your data may be backed up to Apple's iCloud servers as part of your standard device backup. We (the developer) do not have access to this data.

4. App Permissions The application may request the following permission:

- **Notifications:** We use local notifications to send you reminders about transactions (e.g., payment reminders) that you explicitly schedule within the app. These notifications are scheduled locally on your device and are not sent from a remote server.

5. Third-Party Services Since the application functions entirely offline and does not display advertisements, we do not share your data with any third-party services or advertising networks.

6. Changes to This Policy We may update our Privacy Policy from time to time. Thus, you are advised to review this page periodically for any changes. These changes are effective immediately after they are posted on this page.

7. Contact Us If you have any questions or suggestions about our Privacy Policy, do not hesitate to contact us at: nikitahumburovdevelop@gmail.com
